THIRTY-EIGHTH YEAR

LIMA, OHIO, THURSDAY, MARCH 22, 1923

PRICE THREE CENTS

BRIBERY HINTED IN OHIO SENATE PROBE

BORAH WARNS OF G. O. P. DISASTER

Administration Attacked by Sen-
ator in Akron Speech

MAY LEAD NEW THIRD PARTY

Outlines Platform on Which He
Will Run for Presidency

AKRON—(United Press)—The
platform upon which it would be
possible for him to become a candi-
date for the presidential nomina-
tion in 1924, was outlined by Sen-
ator William E. Borah, Idaho, in his
address before 2,000 Ohio progres-
sive Republicans at the postponed
Lincoln Day banquet here last night.

Digressing from his prepared
speech, Borah launched a vigorous
attack on the policies of the pres-
ent national administration.

"I am talking of problems, not
persons," he said.

The senator proposed:
1—American recognition of soviet
Russia and Mexican Republican
governments and establishment of
friendly relations with these two
countries.

2—Reduction of national expendi-
tures and abolition of "a tendency
toward bureaucracy."

3—Returning to the hands of the
people a measure of control over
the country's national resources.

4—Abandonment of the "doc-
trine of force," backed by arms in
foreign affairs.

5—Establishment of a world
court, which might function as an
absolute judiciary.

REPUBLICAN BLUNDER
Borah declared the Republican
party is still trying to hold together
and win battles thru the power of
patronage, appeal to past party
achievements and denunciation of
the opposition.

"It is a fearful mistake," he
said, "it is bringing us to the
brink of political disaster and ruin."

Referring to a third party move-
ment, Borah declared such a step is
not impracticable.

"The old parties," Borah declared,
"have it within their power to put
an end to all such movements by
surgically excising and dealing
with the problems at hand in a thor-
ough fashion."

Former Congressman Charles L.
Knight, progressive candidate for
the Republican gubernatorial nomina-
tion in Ohio last year, introduced
Senator Borah.

Knight denied the purpose of the
rally was to form a new party.

"We are here to see what we can
do in Ohio to save the Republican
party," he said.

"We might just as well under-
stand right now that the people have
lost confidence in us. In spite of the
7,000,000 votes we have won, I am
not sure that we are not now trying
to enter the cellar door."

BIG STILL FOUND

Discovered in Raid on Eagles
Building at Alliance

ALLIANCE, Ohio — (Associated
Press)—Headed by Mayor Clark
and Safety Director Shaw, the police
today made a raid on the Eagles'
building and in the basement of the
structure found a large still in full
operation, with 2240 bottles of home
brew finished and placed on the
shelves, and 40 gallons of mash in
the making.

This is one of the largest raids
the local police have been engaged
in.

RECESS PLANNED

Ohio Legislators May Suspend
Work, March 31

COLUMBUS—(Associated Press)—
Plans for a recess of the legisla-
ture beginning March 31, and
lasting a week or more, were be-
ing made today following a caucus
of senate Republicans at which
the date was agreed upon.

According to the plans, which
were said in some quarters to have
the concurrence of the house, both
houses would recess on March 31,
until April 6, when they would
come back and remain long enough
for the presiding officers to sign
bills which had been passed by
both houses but not engrossed be-
fore the recess, and then take an-
other recess, returning again to
decide what action might be taken
on measures vetoed by the governor.

Since the adjournment was not
among the plans of the leaders of
the senate at least, it was an-
nounced, it being the intention of
the upper house to recess at the
call of the president pro tem. House
members, however, it was said, had
expressed their preference for sine
die adjournment.

EASTER VACATION
Seven days' rest will be enjoyed
by the students in Lima public
schools when classes close Friday
for the annual spring vacation. Ses-
sions will resume Monday, April 2.
Classes in the high schools will
continue until Wednesday and after
a week's vacation will resume April
3.

TRAGEDY REVEALS DEATH PACT

WIFELY AFFECTION A LA KOREA

When Mrs. Yoon from Korea greeted her husband, Y. Yoon, brother
of the former empress of Korea, for the first time in several years, she
didn't give him a rousing smack. Instead she gave the bow you see in
this picture, snapped on her arrival at San Francisco on the T. K. K. liner
Taiko Maru. Yoon's been studying at Princeton.

WOMAN SUICIDE IS IDENTIFIED BY COAT

CLEVELAND—The identity of a
young woman who ended her life
Monday by leaping into Lake Erie,
from the Gordon Park pier was es-
tablished today, police believe, thru
a woman's brown overcoat recov-
ered from the water by a coast
guard crew. Theodore Gusdanovic,
identified the coat as belonging to
his wife Theresa, 27, who has been
missing several days.

HARDING PARTY TO RETURN APRIL 7

Will Visit Augusta on Way Back
to Washington

COCOA, Fla. — (Associated
Press)—Tentative plans for the
remainder of President Harding's
vacation trip, as disclosed today,
contemplate a return to Washing-
ton between April 7 and 10. The
vacation party today cruised north
with the houseboat Pioneer making
good progress. It was certain, how-
ever, that St. Augustine, the end of
the cruise, would not be reached
before tomorrow evening at the ear-
liest and possibly not before Satur-
day morning.

On arriving at St. Augustine,
President and Mrs. Harding, with
most of the other members of the
party will leave the Pioneer and
take quarters at the Hotel Ponce
de Leon. The visit to St. Augustine,
where Mr. and Mrs. Harding have
been spending several weeks each
year for about 18 winters is expect-
ed to extend over next week and
probably until after Easter.

The tentative plans then provide
that the party go to Augusta, Ga.,
for a stay of four or five days, af-
ter which they will return to Wash-
ington, probably to arrive on April
7, unless the president should de-
cide to visit Marion, Ohio, on his
way back. When he first began to
consider the present trip to Florida,
he is understood to have contem-
plated returning by way of Marion so
that he might visit home folks, but
recently he is said virtually to have
given up the idea.

RAIN STOPS FIRE

Five Miles of Mentor Marsh
Swept by Flames

PAINEVILLE, Ohio — (Associ-
ated Press)—Rain early today had
extinguished a wall of flame that
last night swept a five-mile stretch
of Mentor marsh near here, menac-
ing scores of cottages in the Men-
tor Headlands section and attracting
hundreds of spectators who were
powerless to stay its progress. None
of the cottages were damaged, how-
ever.

The blaze, now attributed to the
careless match or cigar of a hunt-
er, was at first blamed upon fire-
bugs whose torch has caused \$600,
000 damage to neighboring homes
and summer resorts within a year.

QUEEN OF COLONY TO TESTIFY

Will Tell Story in House of David
Probe

GRAND RAPIDS, Mich. — (As-
sociated Press)—Rether Hansell,
daughter of John W. Hansell, plain-
tiff in the suit against the Israelite
House of David, and referred to as
the "key" witness in the sensational
hearing, was slated to take the wit-
ness stand today.

Her testimony, it was indicated,
would virtually complete the evi-
dence against the cult which has
been charged with indulging immor-
al practices in the guise of religious
ceremony. Unusual interest at-
tached to her testimony, her name
having been mentioned by numer-
ous witnesses who told of alleged
mistreatment of young girls at the
hands of Benjamin David Purnell,
head of the Benton Harbor colony.

Purnell would be the last man
we would bring in here," one of his
followers was quoted as saying,
when asked if the cult leader would
testify. His wife, Mary Purnell, the
so-called "queen" of the colony, is
slated to take the stand.

That few adult members of the
cult knew of the alleged immoral
practices was indicated by witnesses
already called by the plaintiff. Sev-
eral women have stated they learned
of the reported misconduct on the
part of Purnell from their daugh-
ters, while the male members
who have testified, first heard the
reports from their wives.

One of the latter was Emil Roset-
ta, whose wife, he said, told him of
her experiences shortly before they
were expelled.

The marriage of Rosetta with his
wife, Ione, was one of the "forced"
unions within the colony that en-
dured. They now reside at Newark,
N. J.

It was Mrs. Rosetta who testified
that Purnell was a user of liquor
and tobacco, practices prohibited
among his followers who had not
attained "immortality." She de-
clared she knew of one young girl
who became intoxicated at one of
the feasts at the House of Shiloh,
Purnell's residence, where girls of
the colony also were housed.

Testimony regarding these feasts
also brought out that at one time
great dissatisfaction spread thru-
out the colony over scant provisions al-
lowed some of the adult members.

The head of the organization kept
close watch on information reaching
members within the colony thru a
censorship of outgoing and incom-
ing mail and publications of all
sorts, it was testified.

A similar watch was kept over
members likely to divulge forbid-
den information to outsiders, wit-
nesses declared.

PIKE-CO PROBES TO
REPORT NEXT TUESDAY

COLUMBUS — The house of rep-
resentatives will probably receive
the report of the special committee
which heard the Pike-co election
contest next Tuesday. Representa-
tive M. A. Broadstone, of Greene-co,
committee chairman, announced to-
day following a meeting of his com-
mittee.

WOMAN KILLS HER MOTHER, SELF

Bodies of Couple Found in Home
at Chicago

RESULT OF NARCOTIC HABIT

Drug Evil Wipes Out all But
One of Family

CHICAGO — (United Press)—
The history of how all but one of a
once prominent family have been
wiped out thru the drug evil, was
revealed here today with the mar-
der of Mrs. Ella Woolson, 75, and
suicide of her daughter, Mrs. Edna
Robinson.

Notes found when authorities
broke into the room where the two
bodies were lying, told of a death
pact reached when the two women
were to be separated because of use
of drugs. Mrs. Robinson had cut
her mother's throat with a razor and
then slashed her own.

Numerous marks of the hypoder-
mic needle were found on the wrists
of both bodies.

Authorities had insisted that the
daughter leave her mother and
spend all of her time at the Wesley
Memorial Hospital in an effort to
bring about a cure of the drug hab-
it. "The mother was to be taken to
the home of her son."

The tragedy culminated years of
fruitless struggle against narcotics.

TWO SUICIDES
Twenty-five years ago Mrs. Wool-
son's husband, Dr. Charles Woolson,
a leading physician of Buffalo, killed
himself. His wife came to Chi-
cago with her three children.

A few years later, Howard, the
youngest son, committed suicide.

Edna, the only daughter, married
J. A. Robinson, a merchant. Their
first child died, poisoned from
drugs thru nursing at his mother's
breast.

Robinson, a year ago, was sent to
the Kankakee asylum a raving man-
iac from the use of opiates.

Another son, William, married
and moved away, leaving his mother
and his sister in the home where
they were found last night. Dope,
he said, was behind the family
tragedy from the time of his father's
suicide.

VIOLENCE DENIED BY WITNESS

Under Cover Man at Radical
Meeting, He Tells Court

ST. JOSEPH, Mich. — (United
Press)—Francis Morrow, star wit-
ness against William Z. Foster on
trial for alleged violation of the
Michigan syndicalist statute, today
denied that he had attempted to in-
cite communists to violence.

Morrow, while a government
agent, attended the Bridgeman com-
munist convention as an "under cov-
er man."

Cross-examined by Frank P.
Walsh, attorney for Foster, the fed-
eral investigator admitted he voted
with the "left wing" of the conven-
tion against bringing the communist
party out in the open, but denied
that he had attempted to influence
other delegates to the meeting in
any way.

The defense will try to show that
Morrow's belief decided against the
party becoming a legal organiza-
tion.

The government completed its case
with introduction of Morrow's di-
rect testimony and Walsh hoped to
bring out the main defense points by
cross-examining the prosecution's
chief witness.

Morrow told how the Bridgeman
convention divided into two caucuses—
the "goose" and the "liquidat-
ing" groups. The members of
the "goose" caucus wanted to keep
the party organization secret.

"Isn't it a fact that Foster at-
tended the convention for the pur-
pose of working out a plan which
would have placed the communist
party within the law?" Walsh asked.

The witness denied this, pointing
to an address which he testified Fos-
ter made to the convention in which
the alleged communist said he had
brought a "good substantial revolu-
tionary program" from Russia.

Much of the state's evidence was
ruled out when Judge White held
that nothing that happened at the
convention during the two days ses-
sion after Foster left could be pre-
sented.

KILLED IN WRECK

HURON, Ohio — Albert Hart,
Chicago advertising man, was killed
instantly and his twenty-three-year-
old bride of a week was probably
fatally injured this morning when
the automobile in which they were
traveling to their home in Chicago
skidded and overturned in a ditch
three miles east of here.

STATES AT WAR OVER HER

When the University of Oklahoma held a contest to pick its fairest
co-ed, Frankie Booth, New York artist, decided in favor of Fay Teas,
Conway, (A.P.) girl, shown above. By the time the contest was decided,
Booth had left the university and returned home. "Why should we give
an Oklahoma prize to an Arkansas girl?" asks Oklahoma. "And why
shouldn't you?" retorts Arkansas. And there you are.

"BOOB" MAY SQUEEZE TWO MILLIONS FROM EXCHANGE

Head of Piggly-Wiggly Stores
Threatens Wall Street

RESULT OF STOCK ATTACK

Declares He Will Tighten Screws
on Speculators

NEW YORK — (United Press)—
Wall Street speculators who are
still "short" will pay Clarence
Saunders approximately \$2,750,000
as a penalty for "hammering" his
Piggly-Wiggly stock on the New
York stock exchange, brokers and
Wall Street observers estimated to-
day.

Saunders, in giving "the street"
until 3 p. m. today to settle for \$150
a share on 25,000 shares he claims
are still short to him on delivery,
would collect a margin of \$110,
share, on the basis of the \$40 a
share for which the stock was sell-
ing when he began operations a few
days ago.

If the "shorts" refuse to settle on
this basis and Saunders carries out
his threat to put the price at \$250
after 3 p. m. and collect thru the
courts, the total profit, of course,
will be doubled.

In addition to the amount, Saun-
ders claims is still unsettled, millions
of dollars are involved in his favor
in increased value of the stock be-
cause of its more than doubling in
price.

There are also thousands of
shares, besides the 25,000 he claims
still due on marginal accounts to
others, it is declared.

TIGHTENING SCREWS
MEMPHIS, Tenn. — (United
Press)—The "boob from Tennes-
see" today tightened the screws he
has put on Wall Street speculators
who sought to squeeze him.

Clarence Saunders, president of
the Piggly Wiggly stores demanded
that shorts in the market settle at
\$150 a share by 3 o'clock or the
price of \$250 would be demanded
and the metal thrown into the
courts.

"It was a question whether I
should survive and likewise my busi-
ness and the fortunes of my friends
or whether I should be licked and
pointed to as the 'boob from Ten-
nessee,'" Saunders said, explaining
his action.

The man who never before had
dabbled in the market, told of his
operations which have routed many
of the wisecracks of the financial
world.

A razor at my throat," figura-
tively speaking, is why I suddenly
and without warning kicked the pigs
from under Wall-st and its gang of
gamblers and market manipulators,"
he said. "Never till my Piggly
Wiggly operations in the stock mar-
ket, had I bought a single share
of any kind of stock on the New
York stock exchange."

DELIVERY CALLED
When I called for delivery of ap-
proximately 25,000 shares of Piggly
Wiggly stock, I was told that the
delivery would be made by 3 o'clock
today.

ATHLETE BITES THRU STEEL

LONDON — (Associated
Press)—That a Jewish athlete
named Breitbart, 34, six feet
three inches in height and
weighing 210 pounds, can bite
thru steel is vouched for by a
medical correspondent of
the Lancet.

Breitbart's performances as-
tounded a committee of phy-
sicians, engineers, smiths and
presidents of athletic corpora-
tions who saw him sever with
his teeth several iron and steel
chains one-fifth of an inch
thick; bend over a circle iron
rod half an inch square, us-
ing his mouth as a fulcrum
bend over his head a rail four
inches thick by two and a half
inches.

WOMAN IS TAKEN

Schneider, Housekeeper, Again
Linked With Killing

NEW YORK — (Associated Press)—
Mrs. Anna Buzzi, housekeeper
for Frederick Schneider, wealthy
Bronx contractor when he was slain
on February 26, was arrested today
on a charge of homicide. She had
been released after being held sev-
eral days as a material witness.

Detectors said they had obtained
new evidence connecting her with
the crime.

Schneider was shot to death at
the wheel of his automobile on a
nearly Bronx road. Two witnesses
told of seeing a woman leave the
scene of the murder but neither was
able to identify her.

DONAHEY THREATENS
REMOVAL OF JUSTICES

COLUMBUS — Governor Donahey
in reprimanding Emmett G. Fickell,
Franklin-co justice of the peace
who, it was alleged, has been sign-
ing search warrants in liquor cases
in blank, leaving the place where
the warrant was to be served to be
filled in by the arresting officer,
yesterday let it be known that such
practices if adhered to, will result
in the removal of judicial officers
from office.

The governor declared all provi-
sions of the law governing the issu-
ance of search warrants must be ad-
hered to rigidly.

The action came following an in-
vestigation of the methods used by
Fickell.

EX-POSTMASTER JAILED

YOUNGSTOWN—Joseph Larocco,
former postmaster of East Youngs-
town, was expected today to gain his
release from jail upon payment of a
fine of \$300 imposed yesterday fol-
lowing his plea of guilty to a charge
of violating the prohibition law.

ACTION ON HOTEL BILL REVEALED

Kryder Explains Measure's
Transfer to Judiciary Committee

NOTES, LOANS REFERRED TO

Expense Money Paid to Senator
Also Brought Out

COLUMBUS — (Associated Press)—
The Ohio Senate today was in
possession of the information upon
which Majority Floor Leader George
E. Kryder based his action of last
Thursday in taking from the floor
of the senate the hotel liability bill
of Senator L. L. Marshall, Repub-
lican, of Cleveland, and having it re-
ferred to the judiciary committee.

Kryder, testifying under oath at
the initial session of the investigat-
ing committee created by the senate
to probe into the rumors surround-
ing the bill, told of a conference with
Robert O'Brien, secretary of the Ohio
Hotel Association, at which O'Brien
told him the "story" of a \$300 note
given by Senator J. J. Rowe of
Cleveland, to Ben Sawyer, Cleveland
attorney, who was said to have been
connected with the hotel association
in legislative work.

Kryder also said O'Brien had
told him of "fifty dollars expense
money paid to Senator Rowe recent-
ly." According to the story told him
Kryder testified, William W. Byers,
a legislative representative of the
association also had "handled" the
note.

It was after he had received this
information from O'Brien, Kryder
said, that he asked the senate to send
back to committee the Marshall
bill.

SENATOR'S STATEMENT
In explanation of the Kryder tes-
timony, Senator Rowe issued a state-
ment declaring that the note men-
tioned had been given by him to
Sawyer, an old friend, on January
16, and "paid up and returned to
me on February 3," twelve days be-
fore the hotel bill was introduced.

Sawyer, Rowe said, had been a friend
of his for twenty years. They occu-
pied offices in the same building, he
declared and frequently loaned
each other money and accepted each
other's notes.

"The subject of any legislation
was never mentioned when I bor-
rowed the money from Sawyer, or
while money was owing him," said
Rowe. "And I am not aware of the
existence of any proposed hotel li-
ability bill. I did not know Byers
and did not know that Sawyer had
discounted my note with him."

The \$50 mentioned, Rowe
said, also had been loaned to him by
Sawyer. He had borrowed it on
March 10, and returned it on March
17, he said.

Committee members inquired of
O'Brien President Nickles of the
hotel association, Byers or Sawyer,
were present at the hearing and in-
dicated that they might be called at
the next hearing which will not be
held before Friday.

PRESIDENT OF BILL
The only other witness heard last
night was Senator J. F. Atwood, Re-
publican of Franklin-co, who said
he had accompanied Kryder to his
conference with O'Brien. He had
been told by O'Brien, Atwood said,
that O'Brien had given the bill to
Senator Rowe who said he would
have it introduced. Senator Marshall
then presented the bill but O'Brien
was unable to have the cities com-
mittee act upon it.

O'Brien told him, Atwood test-
ified, that on the day the bill was
reported out by the cities commit-
tee, he had received notice that he
need not watch the measure any
longer but that Byers as chairman
of the legislative committee of the
association, would look after it. By-
ers came to Columbus, Atwood said,
he was told, and that night the cities
committee reported the measure
out. O'Brien said he resented the
sending of Byers to do work which
he was supposed to do.

Following the committee's action,
Byers met Rowe in the senate
chamber. O'Brien was said to have
declared to Senator Atwood, and a
conversation took place in which
Rowe said "you see when I told you
the bill would come out, it came
out."

Senator Kryder in his testimony
said that O'Brien had informed him
that he originally had intended to
ask either Senator Atwood or Sen-
ator William Wenger of Ashland-co
to introduce the bill, but that
when he had come to the state
house, he met Senator Rowe and
upon telling him of his mission,
Rowe had taken the measure, saying
he would "take care" of it.

SECRET STATEMENT
In a printed statement which
formed a large part of his testimony,
Mr. Kryder referred to a statement
which he said had been given him
by Mr. O'Brien and Mr. Nickles dur-
ing a conference and which purport-
ed to have been made by Byers.
This was submitted to the commit-
tee but was not made a part of the
record and its contents were not
divulged. It was indicated that an
effort would be made to bring By-
ers before the committee.

Last night's session was con-
ducted by the committee composed
of Senators Burch of Akron and
Gardner of Cincinnati, Republicans,
and Senator Carver of Millersburg,
Democrat, with the aid of Joseph
B. Easton of the attorney general's
department as counsel.

ADVANCE IN SUGAR UNJUSTIFIED

World Surplus is Shown, Secretary Hoover Says

INVESTIGATION UNDER WAY

Reply to Charges of People's Legislative Service

WASHINGTON — (Associated Press) — Demands now being made for an investigation of sugar price fluctuations "are about as absurd as the demand that such an inquiry had been instituted by the government on March 1. The secretary said he was convinced there was no economic justification for high prices of sugar and that the department of commerce and other governmental departments were investigating into conditions in Cuba, under authority of a law passed by congress authorizing inquiry into combinations of foreign producers of import commodities.

Action of Basil Manly, director of the People's Legislative Service, forced by the progressive bloc in congress, who wrote to President Harding that department of commerce statements had assisted sugar speculators, was characterized by Mr. Hoover as the circulation of a "legend."

"As I have repeatedly stated there is no economic justification for the high price of sugar as there is an estimated world surplus," Mr. Hoover said. "Mr. Manly is about a month behind the times. His proposed investigation into the rise in price. Under authority of congress to investigate combinations of foreign producers of import commodities, this department as soon as appropriations were available on March 4, instituted an investigation into the situation in Cuba. As the department has no jurisdiction in domestic questions of this kind, I have already suggested to the chairman of the federal trade commission that he should undertake this end of the matter.

Demands for an investigation of fluctuations in the sugar market, made during the closing days of congress by western senators were revived today by publication of a letter written to President Harding by Basil Manly, director of the People's Legislative Service, charging that the American people were "in a fair way of being robbed of \$500,000,000 for the benefit of sugar planters and profiteers."

"It is suggested," said Mr. Manly, whose organization was formed by members of the progressive bloc in congress, "that as one of the first tasks of the federal grand jury should be to hear Claus Spreckels, president of the Federal Sugar Refining Company, who has publicly stated that the sugar planters, aided by the department of commerce, have been enabled to rob the American people of millions of dollars."

Mr. Manly declared the rise in prices had their sole basis "so far as the public is informed" in a statement issued by the department of commerce on February 9 which was interpreted by all the newspapers as "predicting a great shortage of sugar during the coming year and that the secretary of commerce had declared the statement was misinterpreted, the opening sentence was so worded as to send prices leaping skyward."

The letter cited what it described as efforts to reduce the sugar crop of Cuba, declaring that Mr. Hoover played an important part in that plan. Correspondence between Senator Smoot, Republican, Utah, described as "undertaking to represent beet sugar interests" and General Crowder, then the president's representative in Cuba, relating to the proposal was "quoted."

"You may not be informed," Mr. Manly continued, "that Secretary Hoover has on other occasions displayed a readiness to use the powers and resources of the federal government in order to maintain artificially high prices at the expense of American consumers."

Declaring that an attempt of Senator Brookhart, Republican, Iowa, to secure a senate investigation of sugar prices was blocked by Senator Curtis of Kansas, the Republican whip, who pledged an investigation by the commerce department, the letter asserted that since that time Secretary Hoover had announced his department did not intend to make an inquiry and suggested the grand jury also should summon Mr. Hoover and Senator Smoot, Curtis and Edge, Republican of New Jersey, to ascertain "what they know regarding influences that were exerted to block the senate investigation."

Demands for an investigation of fluctuations in the sugar market, made during the closing days of congress by western senators were revived today by publication of a letter written to President Harding by Basil Manly, director of the People's Legislative Service, charging that the American people were "in a fair way of being robbed of \$500,000,000 for the benefit of sugar planters and profiteers."

"It is suggested," said Mr. Manly, whose organization was formed by members of the progressive bloc in congress, "that as one of the first tasks of the federal grand jury should be to hear Claus Spreckels, president of the Federal Sugar Refining Company, who has publicly stated that the sugar planters, aided by the department of commerce, have been enabled to rob the American people of millions of dollars."

Mr. Manly declared the rise in prices had their sole basis "so far as the public is informed" in a statement issued by the department of commerce on February 9 which was interpreted by all the newspapers as "predicting a great shortage of sugar during the coming year and that the secretary of commerce had declared the statement was misinterpreted, the opening sentence was so worded as to send prices leaping skyward."

The letter cited what it described as efforts to reduce the sugar crop of Cuba, declaring that Mr. Hoover played an important part in that plan. Correspondence between Senator Smoot, Republican, Utah, described as "undertaking to represent beet sugar interests" and General Crowder, then the president's representative in Cuba, relating to the proposal was "quoted."

"You may not be informed," Mr. Manly continued, "that Secretary Hoover has on other occasions displayed a readiness to use the powers and resources of the federal government in order to maintain artificially high prices at the expense of American consumers."

Declaring that an attempt of Senator Brookhart, Republican, Iowa, to secure a senate investigation of sugar prices was blocked by Senator Curtis of Kansas, the Republican whip, who pledged an investigation by the commerce department, the letter asserted that since that time Secretary Hoover had announced his department did not intend to make an inquiry and suggested the grand jury also should summon Mr. Hoover and Senator Smoot, Curtis and Edge, Republican of New Jersey, to ascertain "what they know regarding influences that were exerted to block the senate investigation."

BARNYARD GOLF MAKES 1923 BOW IN DELPHOS

Enter barnyard golf!
It made its little bow for the season of 1923 Wednesday, the first day of spring, when Delphos firemen gave the luckless a try on the court at City Hall.

Anyway, Lou Leonard said they did, and as proof of his assertion he produced some muskets, and his pitching arm Thursday morning.

GOOD FRIDAY SERVICES
Lima ministers will give five minute talks every noon next week at the Y. W. C. A. with the exception of Friday, when the Y. W. will cooperate with the churches in Good Friday services. The Seven Last Words of Christ on the Cross will be the topic of discussion.

Put your faith in Kellogg's Bran—it relieves Chronic Constipation!

If you suffer with mild or chronic constipation, go after it relentlessly! Constipation has probably wrecked more lives than any one human ailment. It is the basis of many illnesses, leading even to such diseases as Bright's and diabetes. In its milder form it causes nervousness, headache, dizziness, nausea, loss of appetite, pimples, etc. Kellogg's Bran is guaranteed to relieve constipation permanently if it is eaten regularly. Kellogg's is ALL BRAN—that's why it acts as nature's perfect sweeper, cleanser and purifier.

To safeguard your own health, to protect your family, serve Kellogg's Bran each day. As a constipation preventive or mild cathartic, it is the most healthful food. It is a bran cereal, as much with each meal. So long as it is persistently—eat con-

Kellogg's is a delicious in its milk. It is a healthy food, it is the best of hot or cold cereals when sprinkled or mixed with them. Or, cook it with hot cereals, allowing two tablespoons for each person. Kellogg's Bran makes very delicious muffins, raisin bread, etc.

Kellogg's Bran is served in leading hotels, clubs and restaurants in individual packages. All grocers sell it.

Prize Winners In Lima News Contest Who Receive \$25

Winners in the contest conducted by The Lima News involving the solution of a mathematical problem based on The Hotentot, the feature Thomas H. Ince cinema production now appearing at the Sigma theatre, were selected Thursday by judges.

The judges were Prof. Dietrich of Central high school; Prof. Morrison of South high school, and Ralph Austin, engineer and contractor.

Winners in this contest will receive checks totalling \$25, divided as follows: First, \$10; second, \$7.50; third, \$5; and fourth, \$2.50.

Winners of this money are:

First—Ralph Burke, Buckeye Casting Co.

Second—Harold Stallsmith, Colest and Robb-av.

Third—Christine Binkley, 756 Brice-av.

Fourth—H. W. Taylor, 516 E. Market-av.

Following is the full solution by Mr. Burke, which was given first prize by judges:

JUDICIAL SOLUTION:

Cannon ball travels 1 1/2 miles at 1-5 mile per minute in 1 1/2 divided by 1-5, or 9 minutes. The balance of the race takes Hotentot 18 minutes. Therefore, the total time for Hotentot is 9 plus 18 equals 27 minutes.

Hotentot runs for 9 minutes at rate "2R" and for 18 minutes at rate "2R." The distance covered in the entire time is the total time of the race times the constant rate of Cannon Ball, or 27 times 1-6 equals 4 1/2 miles. For Hotentot:

9R plus 18 times 2R equals 4 1/2. R equals 1/10 miles per minute, first rate.

2R equals 1-5 mile per minute, second rate.

Challenge runs two miles in 10 minutes at rate of 1-5 mile per minute. For balance of race, or 2 1/2 miles, he runs at the rate of 1-10 mile per minute, or total time of 25 minutes for the last part. His total time is: 10 plus 25 plus 5 (lost) equals 40 minutes.

Hotentot's time is 27 minutes, first place; Cannon Ball's time is 27 minutes, plus a slight fraction, second place; Challenge's time is 40 minutes, third place.

COMPLIMENTARY TICKETS
The following readers who correctly solved the steeple-chase problem are entitled to one pass each to see "The Hotentot" and may obtain same by calling and identifying themselves at the box office of the Sigma theatre:

Purchases 125,000 Acres of Kentucky Coal Land

LEXINGTON, Ky. — (Associated Press) — It became known today that Henry Ford has bought 125,000 acres of coal land on the Kentucky river, in Clay and Leslie counties at a price said to run from twelve to twenty million dollars.

INTEREST GROWING IN DR. BERGER'S LECTURES

Lectures given this week at Trinity M. E. church by Dr. Edward Berger, psychologist, are attracting considerable favorable comment. It is stated.

Interest and attendance increase each night. Dr. Berger's theme for tonight is "Making Your Own Psycho-Analysis." The lecturer has made a study of health in the light of modern psychology, but approaches his discussion in Christian faith, an approach to services of Holy Week.

His subjects for the remainder of the week are: "Re-educating Your Personality," Friday night; "Unlimited Power," Saturday night; "The Double Trip," Sunday night.

The course of lectures is being given under auspices of the Market Street Presbyterian and Trinity M. E. churches.

FIRE BRINGS NEAR PANIC IN COUNTY WORKHOUSE

PITTSBURGH — Fire which broke out in the brush factory at the Allegheny County Workhouse at Hoboken, 10 miles from here this morning destroyed the building and spread to other parts of the institution. More than 1,000 prisoners are confined in the building.

The wildest confusion prevailed for a time but the arrival of a number of deputy sheriffs from Pittsburgh and volunteer fire companies from surrounding boroughs restored order and prevented further serious damage. The loss was placed at \$150,000. The cause of the fire has not been determined, officials said.

PRICE CUT IN MOTOR TAGS AFTER APRIL 1ST

Motorists who have had their cars laid up for the winter and hence have so far avoided the necessity of purchasing automobile license plates, will save 25 per cent by purchasing after April 1.

James I. Hoffner, manager of the Lima Automobile club, in charge of license sales in this district, estimated that one-fifth of the motorists of the county will purchase tags after April 1, in order to benefit by the reduction.

PARLEY ARRANGED IN SEWER TANGLE

City and Insurance Company Heads Meet March 29

NEW CONTRACT PROJECTED

Completion of Forfeited Job is Being Sought

City officials and representatives of the Royal Indemnity company of New York will meet March 29, to determine who shall finish the work on city sewer contract B, let to the Fred R. Jones Construction company of Chicago and sublet by Jones to Glen Wiley, of Tippecanoe City, who has given up the job.

The Royal Indemnity company will either send its own contractor or have a new contract let to some Ohio firm. It was said Thursday, estimators for several contracting companies have gone over the two-thirds of the contract left undone by Wiley and will submit bids to the bonding company.

Results of a meeting held in Cleveland between the bonding company and the Fred R. Jones company were not learned here.

Meanwhile, Wiley troubles steadily increase. J. G. Fleming, a teamster, has filed a claim with the city against the Fred R. Jones company for \$75.99 for hauling material for the job. City Manager Bingham has instructed the auditor to withhold funds due Jones to meet Fleming's claim.

The Manufacturers Supply company of Lima has granted a guarantee on payments due Jones for \$23.95 for material supplied Wiley. BINGHAM LEFT IN "SERVING"

"The company," said City Manager Bingham, "has come to the office Thursday morning from the Cleveland office of the Royal Indemnity company, he said.

It is a form letter that has been sent to Wiley's creditors, admitting that the Fred R. Jones company sublet the contract to Wiley; that Wiley is unable to finish the work and that it is probable his bills will not be paid until the exact status of the contract is decided.

"There is no question as to the financial responsibility of the Fred R. Jones company," the letter states "but it will require some time to determine the status of the contract and the procedure."

The city will deal only thru the bonding company and the Fred R. Jones company, refusing to recognize that Jones sublet the work to Wiley. In violation of the original contract of Jones with the city, Bingham declares.

COMMERCE BOARD MEMBERS TO PASS ON COMPENSATION MEASURE IN STATE SENATE

Open meeting for the discussion of Senate Bill 155, regarding workmen's compensation insurance and Senate Bill 162 regarding equalization of assessments under the corporation franchise tax law will be held Monday at 7:30 p. m. by the Board of Commerce in the Board's auditorium.

The Board of Commerce will take action on the legislation according to the majority opinion expressed at the meeting, officials said.

Senate Bill 162, introduced by Senator J. R. Gardner, has created an interest among local manufacturers and the meeting Monday is for the purpose of determining opinion on the bill.

Senate Bill 162 provides for the amendment of sections 192, 5195, 5498, 5499, 5501, 5502, 5503, 5504, 5516, and for the repeal of section 4728-11 under the general code for the purpose of equalizing assessments under the corporation franchise tax law.

CENTRAL HIGH ARRANGES FOOTBALL SCHEDULE FOR ITS TEAM NEXT SEASON

Some of the best teams in the state of Ohio will oppose Central high school warriors next season, according to O. J. Dreifek, faculty manager, who has just completed the schedule.

The entire schedule is not filled but some of the dates which are still open will be filled with teams which have real football material.

The schedule for 1923 follows:

Sept. 15 — Van Buren at Central.
Sept. 22 — Open at Central.
Sept. 29 — Bucyrus at Central.
Oct. 6 — Sidney at Sidney.
Oct. 13 — Findlay at Central.
Oct. 20 — Open, away.
Oct. 27 — Ada at Central.
Nov. 3 — Springfield at Springfield.
Nov. 10 — Lima at Central.
Nov. 17 — Lima, here.
Nov. 24 — Open, here.
Nov. 29 — South, at South.

BROKEN LIGHT STANDARDS ABOUT CITY ARE REPLACED

All boulevard lighting standards and globes in Lima are in first-class condition. City Manager C. A. Bingham said Thursday. Broken standards have been replaced, new lights and globes have been distributed and every boulevard light in the city is doing its duty for the taxpayers.

Standards on the concrete bridges across the Ottawa river will not be working full strength until proper wiring can be installed, Bingham said. This work must await warm weather.

ONE-MAN CARS PLACED ON MARKET-SIDE LINES

Four one-man cars were placed in service on the Market-side line by the City Street Railway company Thursday.

With the arrival of two more cars Friday or Saturday, all lines of the Lima City Street Railway company will be equipped by next week, it is said.

Two men have been assigned to the Y-turns in the public square at Market-st., to avoid delay in switching with the one-man cars. They will be kept at the switches until the new cars, contracts for which were let to the Lorain Steel company last week, are laid this summer.

Y-turn transfers will be issued by Market-st. cars.

The Grand-av. Main and Pine, and Depot lines remain to be put on the one-man car basis.

BUSINESS PROGRESS NOTED IN REPORTS

WASHINGTON — All of the production statements and business reports available to the commerce department indicated that business in the United States during February was proceeding at the rapid pace noted earlier in the year, according to a summary of these issued today.

Building, manufacturing and railroad freight movement, the department's statement said, all continued to reflect the stimulation.

"Retail sales kept up to January's mark," the review declared, "in spite of the shorter month, while the transportation system showed signs of overcrowding in the large car loadings and increased shortage of freight cars. The wholesale price index advanced one point and again the decline in coal prices (reverted) a further rise. Food prices, both at wholesale and retail, declined. Increased prosperity is evidenced by the marked decline in business failures and the continued rise in stock prices."

SNOW STORM IS FRIDAY PROGRAM

Mood of the weatherman has become "cantankerous" again. When it had become apparent that he was relenting and intended permitting blithe some spring to have full sway, he didn't do a thing but cook up another March snow storm—or rather the prospect of a visitation of that character.

Rain tonight and colder in extreme west portions, Friday rain, probably changing to snow and colder. That's rather a raw deal to have handed to the general public in the latter part of March and if continued will enable the March Lion to make good on the last day of the month.

Flying high in spring joy, Ted doesn't mind a little rain, but he does not like snow at this time of the year. After all, the weatherman probably knows his business. Holding back development of vegetation now may result in a big saving to owners of early gardens, which are in danger of being nibbled by frost, even a late as in May.

Despite mostly cloudy conditions, the "commons" Lima kiddies are trying out their favorite tricks, preparing for the Kiwanis kite held day.

AYRES PICKED FOR PRESIDENCY

Bryan Booms Kansas Man for Democratic Nomination

WASHINGTON — (United Press) — William Jennings Bryan has gone to Kansas, the cradle of the dry movement, far from Wall Street, to find an "unknown," but potential Democratic presidential nominee in 1924.

More than ordinary interest is attached to the commoner's gentle boom for William A. Ayres, of Wichita, Kans., lawyer and member of the new congress, which reached today. Ayres is described as a Wilson progressive, a pre-lawyer and an ardent dry.

Altho there was no rush to clamor aboard the Ayres wagon, Bryan's boom for the Kansas man was regarded seriously. While never conspicuous, Ayres is not unknown in Washington, having served three terms in the house.

A victim of the Republican landslide in 1920, he will be the only Kansas Democrat in the new congress. He was elected from the 11th district of former Governor Henry J. Allen, by a majority of 16,000 last November.

Bryan a few days ago, declining to deal in personalities, gave his idea of the specifications of the Democratic nominee as a man who would be neither a fool of Wall-st, nor of the wets. Bryan declared it was unimportant that he be well-known. Today's issue of the Commoner, Bryan's mouth-piece—contains a signed editorial by Bryan booming Ayres as meeting his expectations.

Bryan, thus is turning his back temporarily at least, on such candidates as William O. McDougall, James M. Cox, Senator Oscar S. Underwood, Governor Smith and John W. Davis.

Ayres, according to Bryan, is "sound on every question and will make friends as soon as the people become acquainted with him and his record."

"If the Democrats were as well supplied with newspaper as the Republicans are," said Bryan, "a man like Congressman Ayres could soon be made known to the entire nation. He deserves a place among the Democrats who are available for this high position."

CITY FUND DEFICIT TO BE EXPLAINED BY BOARD

Discussion and explanation of the 19th annual report of the Board of Sinking Fund Trustees will be made by the members of the board to the city commission at the meeting Monday evening.

A overdraft of \$58,867.32 will receive considerable attention. Sewer bonds for \$250,000, due July 1, will also be discussed.

RADIO WILL BROADCAST SERMON BY REV. GIBSON

A ten-minute Lenten sermon by Rev. George H. Gibson, pastor of the First Presbyterian church, Delphos, will be broadcasted Friday at 6 p. m. Delphos time, from Detroit on 400-meter wave length.

Rev. Gibson is one of the Detroit pastors giving sermons over the radio each evening during Lent. He is now pastor of the Oliver Presbyterian church there.

DRUGGISTS RULE AGAINST UNAPPROVED SOLICITING

Members of the Lima Druggists club will abide by the merchants' agreement that all solicitations must have permits from the Board of Commerce. It was announced following a dinner meeting at 6:30 Wednesday evening at the Bar Hotel, R. E. Ashley, assistant manager of the Board of Commerce, addressed the club.

A committee composed of Stuart Given, Harold Cress and M. M. Keith was appointed to canvass druggists for city permits for membership in the Board of Commerce.

Ashley spoke on the work of the local Better Business bureau in raising business ethics to a higher plane and in protecting business men from fraudulent and inefficient advertising schemes.

RUSSIAN BANK IS GOLD MINE

\$10,000,000 Worth of Yellow Metal Heaped in Institution

COAXED IN FROM PEASANTS

Huge Profits Taken by Government Financiers

MOSCOW — (Associated Press) — Ten million dollars worth of gold, in Russian rubles and glistening ingots of bullion, are heaped up in the treasure vaults of the Russian State Bank, the results of one year's activities of this Soviet financial institution.

Twelve months ago it started doing business with a capital of deprecated paper rubles. Under the management of old-time Russian bankers, who never hesitated to take big profits, and urged along the same lines by the national necessity to accumulate real money, the bank has been adding daily to its reserve fund.

An American, for example, takes a perfectly good check for \$500 to his bank to be cashed. He waits an hour and receives a slip of paper bearing calligraphic figures showing that the cashier will hand him \$475 for the check. Thereupon he can easily understand how some of these profits have been made. The State Bank has a monopoly on foreign exchange, but it will pay in actual American or English currency for the checks it receives, and the average foreign check prefers to pay five per cent and receive real money, instead of an amount of Soviet paper.

DOLLARS FOR RUBLES
Another advantageous practice of the bank is to change dollars into rubles, paying practically the same rate as the money changers on the illegal bourse. The difference may be only a few thousand rubles on the dollar, but it is enough to add to the constant trickle of profits to the State Bank's till.

At the beginning of 1922 it was estimated that about 300,000,000 gold rubles were still in the hands of the peasants and other private persons in Russia, having been hoarded or slowed away in old socks against a rainy day. The opening of legal banking operations, and the frank winking on the part of government authorities at operation, on the so-called illegal bourses, have coaxed many millions of this gold from its hiding places. A considerable portion has found its way to the State Bank, which sends its own agents to these illegal bourses and offers for this gold, and for foreign currency, higher prices than the private traders can afford. For this bank, of course, pays only paper money of which it seems to have an inexhaustible supply.

MORTON'S REPORT ON BLUE SKY LAW CHANGE PROTEST APPROVED BY LIMA BODY

Endorsement of Manager J. E. Morton's report on the Cleveland conference of Better Business Bureau managers, which protested against the substitution of the present Blue Sky law in Ohio "by a bill of questionable value," was given by the executive committee of the Board of Commerce at the Elks' club Thursday noon.

The body also strongly endorsed affiliation of the Business and Professional Women's club, organized recently, with the Board of Commerce. About twenty women engaged in business and the professions are members of the club.

"The house-warming committee reported thru its chairman, Mark Kotler, that plans are shaping rapidly for the event which will mark the removal of the Board of Commerce to its new home in the old brownstone Steiner-bldg on Elizabeth-st."

RELATIVES OF Z. R. MASON BENEFICIARIES OF \$4,000 ESTATE LEFT BY WIDOW

Distant relatives and children of her husband by a former marriage will participate in the division of the estate of Mrs. Elizabeth Mason, Bath-in, according to terms of her will, probated before Judge J. H. Hamilton, Thursday.

The document was drawn at a time when the decedent was residing at Columbus Grove.

Provision is made for sale of all household goods, save a number of articles specially enumerated. Proceeds of the sale will be used to care for the burial plot of Z. R. Mason, in Blue Lick cemetery, in Bath.

The remainder of the furniture and effects and \$4,000 cash is to be divided among the foster children, Jeanne Wright, Susanne Mason, Frank Mason, Charles E. Mason and Irvin H. Mason.

Proceeds from sale of real estate will be divided among the heirs of Elizabeth Jagger \$200 each, and the heirs of Angeline Van Meter, \$200 each. William and Sam Kidd will receive \$150 each.

A conditional bequest of \$50 will go to Columbus Grove M. E. church, if sufficient money remains to pay. All other money remaining will accrue to the foster children. Frank Mason is to act as executor for a remuneration of \$100.

COW IS TORTURED

Owner Should Have Same Treatment Botkin Says

Torture by inserting a ring in the tongue of C. Wolf, farmer, near Starrod, was threatened as punishment, when the man was brought before Justice E. M. Botkin, on a charge of torturing a cow in like manner.

"That is what ought to be done," Justice Botkin told him, "but it isn't within the power of the court. So I'll fine you \$2 and costs."

Wolf paid the sum. He was arrested by Frank Killham, county humane officer, after neighbors had filed complaint that he had been torturing a cow. A ring like that used to keep hogs from rooting was fastened in the animal's tongue.

COMMERCE BOARD MEMBER CAMPAIGN GOING GOOD

Informal preliminary reports of the eight two-men teams engaged in a membership drive for the industrial division of the Board of Commerce are "very encouraging."

George H. McHenry, general chairman of the committee, said Thursday.

"It is too early to provide definite information," McHenry added, "but the teams are making good progress."

Action Promised in Des Moines Voter League Meet

DISCUSS LEAGUE NATIONS

Factional Contest Seen Over Director Election

WASHINGTON (Special)—The tanciest feminist fight staged since women won the vote will, it is predicted in inside suffrage circles, develop at the annual convention of the League of Women Voters at Des Moines April 9-14. Chief bones of contention will be:

1—Whether to maintain aggressively the line of cleavage that has separated the suffrage activities of the league from those of the National Woman's Party.

2—Whether to give official organization sanction to the League of Nations.

3—What part the organization shall play in the movement for international co-operation to prevent war.

4—Whether the organization shall hereafter specifically endorse candidates for public office.

In addition to these issues, concerning which there is already in much palpitation in league circles, there seems certain to develop a fine factional fight over the selection of the seven regional directors. In addition to the regional directors, however, there are also to be elected two vice presidents and a treasurer. Mrs. Maud Wood Park, president holds office for one more year.

CANDIDATES "CHOSEN"—An official "slate" of "approved" candidates will be presented to the convention by Miss Esther Ogden of New York, chairman of the nominating committee. Miss Ogden's feeling for Democratic policies is declared to be strong. She was vice chairman of the woman's bureau at

Democratic national headquarters during the 1920 campaign.

Other members of the nominating committee, the composition of which is declared to be significant, are:

Mrs. H. B. Chamberlain, Atlanta, described as an "Idealistic Democrat." Mrs. Chamberlain is not of the old-time suffrage wing.

Mrs. James E. Chaceman of Rhode Island, a D. A. R., not active in suffrage circles until after the vote had been won.

Mrs. T. T. Cohn of Arkansas, a delegate-at-large to the Democratic convention at San Francisco in 1920.

Mrs. Sadie Hood Passing, Iowa, who represents the viewpoint of middle western women as to what the league should do.

Miss Julia P. George, California, social worker and artist.

Mrs. James W. Morrison, Illinois, who says she has "been messin' in politics" since her girlhood in Richmond, Ind., and who seconded Herbert Hoover's nomination at Chicago in 1920.

SIDE-TRACKING OLD-TIMERS

If the slate to be presented by this committee is put there, it is predicted an entirely new element in the league will be brought into prominence and the majority of the old-time controlling heads in the organization slanted onto a side-track.

If this is effected, it is likely the organization's work will be turned energetically toward certain heretofore controversial questions involving educating women for citizenship, stimulating them to get out and vote and emphasizing more directly the practical rather than the merely theoretical side of suffrage.

Whether this can be accomplished, however, is a question. Almost every state league has at least one candidate to propose and each state delegation will hand in Des Moines ready to battle for its own favorite.

Out of this contest for recognition for new blood and for heretofore unrecognized state leagues, may emerge new leaders and new ideas.

The only thing certain is—before these emerge there will have been one fine and fancy fight as stated in opening.

CENTRAL HI NEWS NOTES

Seniors of Central High were afforded the opportunity of learning something about college work and how to choose it when Prof. Williams of Heidelberg and Mr. Dalton, a Senior at Ohio Wesleyan, spoke in the study hall upon that subject Wednesday afternoon.

Both emphasized that no matter what college a person goes to after finishing high school, he should plan his course with care and know exactly what benefits he will derive from it. The value of college work was stressed and it was shown how much better one could do his life work with a college education helping him to solve his problems.

A special meeting of Central high senate will be held Thursday evening in the study hall. A debate will

be staged and special business will be disposed of.

The debate, "Resolved, that the Cabinet Members of the United States Should Have Seats in the House of Representatives," will be defended by Senators Fry and Baum, while Fritz and Friedley will oppose.

Decision to call off the minstrel show which had been considered for the past two weeks was made by the H-Y club at their bi-monthly dinner meeting held at the Y. M. C. A. Wednesday evening.

It had been practically decided to put on a blackface show, but because of the short time of school which remains and the heavy work of the Seniors from now on, members decided that it would be best to let the matter slip.

After a short business matter, initiation of new members took place. Those who were taken into the club are: Wesley Lones, Bernard Bayh and Durbin Knisely.

Science clubs of Central high held their regular Wednesday meetings Wednesday afternoon. The respective studies of the clubs were taken up with unusual vigor.

The Radio builders now have a

complete membership and the archaeology club is within two of its limit. Astronomical club is rapidly approaching full membership, while the Bird study club can accept quite a few enthusiasts.

A list of reference books and magazines was given to members of the Archaeology club and it is thought that this will help members clear up many difficult points.

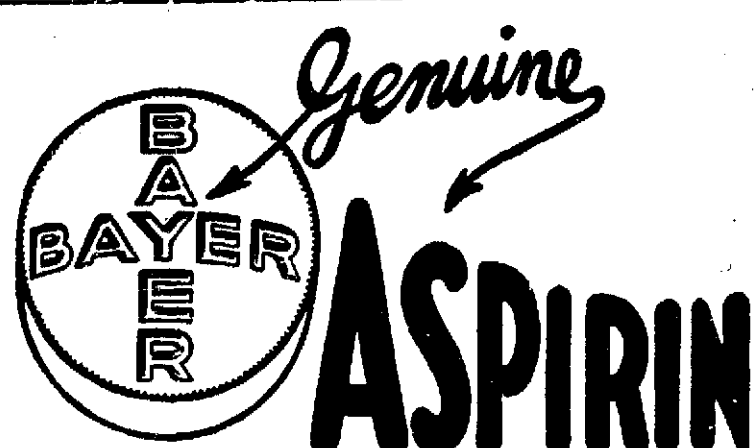

Monthly meeting of the Thalian Literary society, a Senior organization, was held Wednesday, with Miss Jeanette Stuart chairman of the program committee in charge.

Several book reviews, solos and readings were given. Miss Pauline Tilley is president of the club.

Teachers of South High school were hosts to Central teachers at the South building.

Impromptu addresses and talks on different phases of school life were given by teachers of both schools. Lunch was served.

STOCK SHIPMENTS GAIN IN COUNTY

Increase for Allen During Past Year is 60 Per Cent

UNIVERSITY MAN SPEAKS

Figures Presented Concerning Cooperative Marketing

Livestock shipping in Allen-co increased more than 60 per cent in the past year, Prof. B. A. Wallace of Ohio State University told members of the Cooperative Livestock Marketing company at the Allen-co Farm bureau offices Wednesday afternoon. Prof. Wallace presented the monthly analysis of the livestock department of the Ohio Farm Bureau federation for 1922.

With an increase in volume of business handled by the cooperative Livestock Shipping company, there has been a proportionate decrease in shipping costs, Wallace said. The larger the number of cattle handled, the smaller is the shipping cost per head.

"I do not believe the average shipper of livestock realizes the small cost of doing business thru a cooperative livestock company," Wallace declared. "In every county where I have examined records, more than 85 cents is returned to the shipper for every dollar netted at the market."

The highest figure of expense, Wallace said, in any of the counties he had audited, was 1.3 cents.

The largest volume of business done by any cooperative livestock company was in Fayette-co, where 173,000 pounds were shipped. Other high counties are Wyandot with 75,220, Putnam with 71,318,000 and Madison with 7,062,000 pounds.

HOW COUNTIES RANK

Rearranged in order of proportion of business done by the cooperative livestock company to the total livestock in the county, the order is Wyandot, Logan, Morrow, Putnam, Darke, Union, Fayette and Auglaize. Different locations show a different cost of doing business. Clinton-co is lowest with 44 cents per hundredweight, and Tuscarawas highest with 85 cents.

Van Wert, Columbiana and Guernsey, widely separated geographically and in distance from markets, all have a cost in the neighborhood of 80 cents. Champaign and Madison, next door to each other, have a three-cent difference in costs.

Allen-co pays 68 cents per hundredweight for crimples and deads, followed closely by Van Wert and Marion counties with a high loss. Highland-co, on the other end of the list, has a loss cost of 4 mills, with Perry, Fairfield, Pickaway and Clinton all under 1 cent.

Losses by crimples and deads per \$100 market value was 79 cents in Allen-co.

Costs have been progressively lowered by the cooperative marketing companies, Wallace's figures showed. During 1921, thirteen average counties had an average cost of 77 cents per hundredweight, which ran down to 61 in 1922, a reduction of 7.6 cents.

THREE DRAW FINES ON INTOXICATION CHARGES

G. C. Clark, 19, Alger, was fined \$15 in police court Thursday morning on a charge of drunkenness. Police decided that Clark drove away in a machine belonging to L. V. Baker, of Alger, while they were attending a dance Wednesday night. Baker refused to prosecute Clark on this charge and he was arrested on a charge of drunkenness.

Charles Kessick, 54, of 328 W. North-st., was fined \$25 when he pleaded guilty to a charge of drunkenness. Police say that Kessick was brought to the station in an ambulance Wednesday night, someone had announced when they believed him to be dead.

Casey Jones, Maxwell Hotel, was found guilty of being drunk several days ago, when given a trial Thursday morning in police court. Police say Jones broke up the dishes in the Halloran Hotel, S. Main-st., several days ago. Jones denied he was drunk. He was fined \$15 and given a sentence of 10 days in jail, during which time police intend to investigate his record, as they claim he served a sentence in the penitentiary at Ionia, Mich.

LIMA MEN INTERESTED IN GOOD OIL PRODUCER

What is said to be the best flowing well drilled in the new Findlay field, was completed Wednesday by the Eastern Oil company, formerly the Lima Oil company, 12 miles north of Findlay.

Oil shot up out of the well and flowed over the top of the derrick. The tanks were filled within two hours after the well was brought in. The initial flow was at the rate of 100 barrels a day.

Judge S. A. Armstrong and Floyd Armstrong, a son, are interested in the new well.

Students Wroth As Dog Catcher Snarles Mascot

The law fraternity of Ohio Northern university arose in its wrath as Bud Cline, of Kenton, Hardin-co, official dog catcher, paid Ada his first visit of the year and chucked into his wire-caged wagon no less an animal than "Judge," the mascot and pet of the fraternity.

When news was spread that the pet had been "pounded," law students, Police Chief Ellis and Mayor Harry Sausley started on a hunt for Cline, who was merrily making his way back to Kenton with the load of stray canines. Overtaken near Kenton, matters were adjusted when "Judge's" owners produced the license and explained that the dog had escaped from the house without wearing its collar.

STEEL'S DEATH IS INVESTIGATED

Founder of Great Corporation Dies Suddenly on Train

BODY REMOVED AT TOLEDO

Schauffeur, Accompanying Him, Missing From Hotel

TOLEDO—(United Press)—Leonard R. Steel, Jr., 42, of Getzville, N. Y., formerly head of the L. R. Steel Department Stores, Inc., died aboard a New York Central train en route to Chicago, shortly after midnight this morning. The body was taken from the train at Toledo, at 2 a. m.

From the preliminary examination of the body, Coroner Henzler said that death probably was due to heart disease, but said he would hold a post mortem examination to determine the cause of death.

Steel was accompanied by his chauffeur, Ernest Martey, who occupied the drawing room with his employer. Martey told Coroner Henzler that Steel had felt badly for an hour before his death and Martey and the porters had tried giving the man restoratives. Martey got off the train at Toledo with the body and registered at the Seacor hotel at 3 a. m. At 8 a. m. he checked out and could not be located. Business associates of Steel said that he had been having financial difficulties, but expressed the belief that Steel would have been able to pull his interests thru the present crisis.

BUSINESS PROBED
BUFFALO, N. Y. — (Associated Press)—Leonard R. Steel founder of the L. R. Steel Corporation, which went into receivership on March 8, died early today on a train en route to Chicago.

Steel's sudden death came on the eve of investigations into the stock selling and other financial methods of his promotions by county and state authorities. Carl Sherman, state attorney general, yesterday notified the receivers that he desired to make a thorough examination of the books of the various Steel corporations and District Attorney Cur B. Moore announced last night that on account of reports of gross extravagance in the handling of the \$20,000,000 invested by 50,000 stockholders he would join in the inquiry.

Federal agents are also in touch with the receivers but have as yet taken no action.

SMALL BEGINNING
Starting with small capital Steel, generally directing advertising and stock selling campaigns, disposed of more than \$20,000,000 in L. R. Steel Incorporated and its various subsidiaries. As the money poured in new corporations were founded, chief among them being the L. R. Steel Service Corporation which had to do with stock sales; the L. R. Steel Realty Development, handling all leases and real estate owned by the various branches, and other widely looking incorporations, both in the United States and Canada.

Mr. Steel, his former associates say, ruled the policies and destinies of the house of Steel with a high hand. Any suggestion from a subordinate in opposition to Steel's plans for expansion resulted in immediate dismissal, it was said. Chain stores were purchased at what were alleged to be exorbitant prices, new restaurants and cafeterias were opened at a loss, a large sum was invested in a coal mine and about \$150,000 was spent in exploiting a permanent international exposition at Niagara Falls before the enterprise had advanced beyond the blue print stage. Steel also surrounded himself with high salaried executives and paid high commissions on stock sales.

His methods were attacked by financial publications but with little apparent effect, his stock selling organization continuing to bring in thousands of dollars daily.

DESERTION CHARGED TO BASEBALL PLAYER

ORLANDO, Fla. — At liberty under bond on promise of the Cincinnati National League club to stand responsible for him, Danny Deaver youthful recruit pitcher, today awaited the next move to unravel the tangle in which he placed himself when he left the army at Fort McDowell, California, and came here to join the Reds.

Deaver was arrested yesterday on charges of desertion from the United States army and was being held for military authorities. Deaver said he understood from a Cincinnati scout that he would be purchased from the army and, accordingly, he left his post and came to the training camp.

DAYTON DETECTIVES HERE

Jazz Artist Proves Puzzle to Authorities

Dayton detectives who came to Lima Wednesday to question Virgil Dackin, 19, boy bandit, departed Thursday uncertain as to whether or not the boy had accomplices in robberies he admits staging in that city.

Virgil was brought out of the jail and cross-examined by the Dayton detectives, Sergeants J. Kernan and Tom Wallenhaupt, Chief T. A. Lanker and Detective Willis Kipper, in Sheriff Crosson's private office. Crosson was present at the inquiry.

The prisoner staunchly stuck to his story that he pulled the two Dayton jobs alone. His story in most instances compared with the information given Dayton police by the persons victimized.

THEORY OF POLICE

The cool manner in which the boy pulled the jobs is a puzzle for the police. They cannot conceive of a novel getting away with the thing so easily. Clever crooks, lacking the nerve of the Toledo boy, they believe inspired the robberies, but stood back as lookouts, sharing in the loot.

The once immaculately attired bandit is still wearing the clothing that was torn to rags and tatters in the thrilling chase that ended in his capture by police.

A dizzy spell to which he has lately been subject, the boy told the officers, caused his capture.

"I had to stop," he said, "I was all in."

The boy asserts he has had recurring attacks of dizziness in the past two weeks.

Thursday after eating breakfast, aelin retired to his cell and went to sleep. He told Sheriff Crosson he was not feeling well.

MULTIPLE LISTING, CITY BEAUTIFYING AND ZONING TALKS AT REALTORS' MEET

Operation and advantages of the multiple listing system for cooperative handling of real estate deals will be explained to members of the Lima Real Estate board at a dinner meeting Thursday evening at 6.30 at the Hotel Argonne by D. G. Boyd, for six years secretary of the Dayton Real Estate board. City Manager C. A. Bingham will address the meeting on Lima's plans for beautifying the city and zoning.

Boyd, said to be the inventor of the multiple listing system in most general use in the United States, will outline the benefits which accrue to real estate men and the public thru use of the system which will be installed here April 1 under the direction of Edward T. Layport, executive secretary.

The dinner is given in recognition of 60 associate members obtained in a recent drive.

RICHLAND-TP ROADS ARE VIEWED FOR BETTERMENT

County commissioners viewed roads in the vicinity of Bluffton Thursday, with the intention of learning what steps should be taken to put them in good condition.

Detours around sections of the Dixie Highway, partly completed have worked considerable damage to country roads, which have been carrying 200 per cent more traffic than ever before.

WILL VISIT CHIROS IN JAIL HERE

Indiana Delegation Coming to Lima, With Band

Lima chiropractors lodged in the county jail are to be the hosts of a large delegation on Fort Wayne practitioners and followers of the cult, who plan to visit them soon.

Permission was granted Thursday by Sheriff Harvey B. Crosson for the Hoosier delegation to visit his charges.

Word from Fort Wayne states that a special car to bring chiros from Ft. Wayne and other Indiana cities, together with patients, will be chartered for the trip to Lima.

A brass band may accompany the crowd. Date of the visit has not been determined, but may be made Sunday. While in Lima the Hoosiers intend staging a demonstration against the incarceration of the four practitioners.

MRS. HIRAM HOLDRIDGE DIES SUDDENLY, VICTIM OF ANGINA PECTORIS

Mrs. Lenore Holdridge, 74, wife of Hiram A. Holdridge, owner of the Model Mills, 129 S. Central-av., died suddenly at her home, 916 W. Market-st., shortly after midnight Thursday morning. Death was due to angina pectoris, a form of heart trouble. Her husband was with her at the time of her death. She was born in Westminster, August 13, 1848.

In addition to the husband, she is survived by three daughters, Mrs. T. S. McManus of Detroit, Mrs. William S. McGuire of New York City; Mrs. Len Merrill, of Lima; one son, Robert Holdridge, of Lima.

Funeral arrangements have not been completed, pending arrival of relatives.

WORK BEGINS SOON ON PARK PLANS OUTLINED BY DELPHOS KIWANIS CLUB

Civic Interests Are Promoting Big Improvement

GENERAL PUBLIC IS AIDING

Three Streets to be Paved During the Summer

Civic interests at work in promoting the new city park at Delphos have hopes of an early start on actual construction work. Interest displayed in the community fair, which will be held April 8 and 9, is evidence that the public at large is back of the movement.

Behind the project is the Kiwanis club, committees of which are now in the midst of work on the fair and lining up other organizations in favor of the improvement.

The work of laying out the park will be started immediately after the fair. Graders, broken concrete and brick material is on hand now to begin construction of driveways.

That the park will be built thru efforts of the public at large is shown by the participation of lodges and other organizations in donations. Committees from each were named recently by the Kiwanis club to determine what will be done.

Dr. G. G. McCoy and H. H. Hick will determine what the Masons will do. Glenn Shriver and E. E. Truesdale, Knights of Pythias; J. F. Weidemann and A. J. Shenk, F. O. Eagles; A. C. Weger and L. C. Laudick, Catholic Knights of Ohio; H. A. Long, Catholic Knights of America; and R. H. Jettinghoff, Knights of Columbus.

The park improvement will be undertaken simultaneously with the paving of S. Main and S. Pierce streets, two thoroughfares leading to the park.

DELPHOS SERVER SEEKS BETTER ROADS INTO CITY

Conference held between Ed. Spellman, Delphos city service director and the county commissioners Wednesday relative to improvement of roads leading into Delphos, ended in a stalemate.

Spellman sought to tie the commissioners up to an extensive program, calculated to permanently improve all county roads entering the city.

The commissioners were unable to assure the Delphos server at this time just how much of a program they can undertake in the west end of the county.

One year ago, the county improved streets leading into Delphos from the north and east.

DELPHOS LYCEUM COURSE TO BE DECIDED TONIGHT

Delphos Lyceum course for the season of 1928-29 will be decided upon Thursday night at a meeting of the local lyceum committee, composed of representatives of churches, lodges and other organizations of the city.

Two lyceum companies are seeking the contract. Talent for next season was to have been selected Tuesday, but was postponed until the committee organized.

H. R. Hick, school superintendent, is president of the committee.

DELPHOS KIWANIANS TO ENTERTAIN BASKETEERS

Recounting experiences of the St. John's high school basketball team will feature the program Tuesday when the Delphos Kiwanis club will honor the players at its noonday luncheon.

A member of the club, probably the secretary-treasurer, Dr. P. C. Maurer, will outline the record made by the team last season, winning 19 out of 23 games and scoring a total of 922 points against their opponents' 379.

The meeting was postponed one day because of inability of Harry Allen, Bellefontaine park expert, to address the club on Monday.

SCARCITY OF COMEDIANS FOR DELPHOS MINSTREL

Black face comedians are scarce these days. It appears to those in charge of staging the annual K. of C. show in Delphos, April 10 and 11. Difficulty is experienced in securing a cast of sufficient size. At a rehearsal Wednesday night it was found that two or three men, several balladists and one or two men for other parts are needed. Women have been turning out in encouraging numbers.

Another rehearsal will be held at the K. of C. club rooms Friday evening under directions of the producer, C. C. Cleveland.

DELPHOS POLICE SEEK IN VAIN FOR THIEVES

Thieves who stole 150 Butz Cochlin chickens at Bluffton, Indiana, Wednesday, were believed Wednesday night to be heading toward Delphos.

Police were on the lookout for the chicken coop raiders and watched all incoming traffic, but no vehicle containing the pilfered fowls was spotted.

DELPHOS MAN DIES, IS VICTIM OF PARALYSIS

Jacob Dahm, 75, carpet weaver, died at noon Thursday at his home on S. Jefferson-st., in Delphos, from paralysis, after a illness of three weeks.

He is survived by his widow and an adopted daughter, Mrs. Chris Lindemann. Funeral services have not been arranged.

DELPHOS MAN HAS SAME TOE CRUSHED THIRD TIME

Hoodoo is likely to affect anything and everything, but Arthur Kindley, employee of the Delphos Manufacturing company, cannot understand why his left big toe should fall under the spell of the jinx.

For the third time he has suffered a fracture of the appendage. It was caught in a power machine which he was operating at the plant. The fracture is compounded and causing Kindley much trouble.

EMPLOYEES AT DELPHOS PLANT GET WAGE BOOST

Effective this week, wages of employees at the Delphos Bending company plant have been given a boost. The general increase is two and a half cents per hour. The plant is operating with a full force of employees at the present time.

FUNERAL OF INFANT

Funeral services for Treva Shroves, infant daughter of Mr. and Mrs. Gladstone Shroves, were held at the residence 714 E. Vine-st., Tuesday at 2:30 p. m., Rev. C. A. Rowland officiated. Burial in Woodlawn.

MRS. SHREVE'S IMPROVED

Mrs. Treva Long Shroves is recovering from a serious illness, at the City hospital.

WOMAN MAY BE MAN OF BUSINESS MODEL SLAYER

Probe Turns From Male Suspects in King Death

NEW YORK — (United Press) — Possibility that a woman—not any of the various men suspects—murdered Dorothy King, pretty artist's model, was considered by authorities investigating the mystery today.

The model was found a week ago, having been killed by chloroform pressed to her nostrils and her little flat had been ransacked. Search for the murderer headed at once toward men companions of the "Broadway Butterfly," the friend who supplied her with jewels, the friend who supplied her with fur coats and the underworld characters whose life from time to time touched hers.

A week's investigation finds the authorities admittedly have no evidence against any of the men—but belief grew today that behind the shield of open search for the male friends of Miss King, police and detectives have trailed a woman, powerful enough to have twisted the model's wrist and held the chloroform soaked cotton to her nose until she died.

Only one man, and his innocence has been said to have been established, has been identified as having entered the girl's flat on the fatal night. Hitherto because of the brutal aspects of the murder, only the movements of men have been studied.

The belief today was that Miss King's friendship for certain men had aroused the furious anger of a woman acquaintance and that the latter may prove to have been the real slayer. The man's necktie comb found in the crumpled sheets where the pretty model's body was discovered may have been left as a blind, it was pointed out, or may have been dropped by an earlier visitor.

MAN OF BUSINESS PRAISES TANLAC

M. Cabell Declares it Quickly Ended Stomach Trouble and Restored Lost Weight

"My own case convinces me that Tanlac is the best medicine made, and besides I have heard more praise of this treatment than I have of anything else combined," states Mayo Cabell, well known business man of Charleston, O., residing at 512 N. 5th St.

"Before taking Tanlac my stomach was in such terrible condition that I feared I was to be a confirmed dyspeptic. My appetite was gone, and indigestion and bloating were very painful and troublesome to me. My troubles pulled me down in weight and strength until I simply felt wretched and had no energy for my work."

"Well, it's simply remarkable to me the quick and splendid results I obtained from Tanlac. Why, in a few weeks' time the treatment has put me in as good a condition as I ever enjoyed, and various people I meet tell me of similar experience they have had with Tanlac."

Tanlac is for sale by all good druggists. Over a 35 million bottles sold.—adv.

PROGRAM OF KITE CONTEST READY

Eight Thousand to be Distributed by Renz Bakery

JUDGES FOR EVENT CHOSEN

Boys Prepare for Entries in Flying Classic

Eight thousand programs, containing rules, prizes and entry blanks for the second annual Kiwanis Klub Kite Contest at the Allen-co fair grounds April 21, will be distributed Saturday by the Renz bakery, F. P. O'Connor, chairman of the committee announced Thursday.

One complete program, just off the press, will be wrapped in every loaf of bread delivered by the bakery Saturday. In addition to rules and prizes for the contest, the program contains an article on kite construction, with a page of diagrams and illustrations.

The article covers many fine points of scientific kite building. Methods of lashing frames, of balancing and harnessing, and of securing guy strings are explained, with drawing. It also describes construction methods for Dragon, Owl, Clown, Star and Ship Kites.

Prizes valued at \$137.25 will be distributed to winners of the first four places in each of the eight contests, in addition to a \$20 cash grand prize. Articles which will be given as prizes were all donated to the committee by Kiwanis.

JUDGES CHOSEN

Judges of the Kite Contest will be C. A. Bingham, city manager; Prof. J. E. Collins, superintendent of public schools, and Judge Emmett J. Jackson, of criminal court.

In addition to the distribution by the Renz bakery, Prof. Collins will supply teachers of the public schools with programs and entry blanks. Blank and programs may also be obtained at The Lima News and the office of the Lima Natural Gas company.

When filled out by applicants, the entries should be mailed to Post-office Box 247, or delivered at the office of the Gas company, 112 W. Market-st. Entries will close Friday, April 20.

General rules for the contest follow:

Who May Enter: Allen-co and city of Lima boys under eighteen years of age.

How To Enter: Use entry blank provided in program or secure additional blanks from The Lima News or the Lima Natural Gas company; mail blanks to the Kiwanis Klub Kite Contest, box 247, Lima, or to the Gas company office, 112 W. Market-st, not later than April 19.

Regulations: 1—Boys may enter from one to eight kites, limited to one kite in any one class.

2—No kite can enter contest for more than one class.

3—Entry blanks must be filed for each kite entered.

4—All kites must fly to win prizes.

5—Each boy must fly his own

kite and is permitted one assistant for each kite entered.

6—Kites must be constructed by the contestant.

7—No one permitted on flying field but judges, committees and contestants.

Supplemental rules have been prepared for each of the eight contests. It is important that contestants become familiar with these rules, as infractions may cause disqualification of the entry. The supplemental rules also name the points on which judgment of the winners will be based.

CONTEST EXPLAINED

In a preface to the program the object of the contest is explained: "Every child should be afforded the God-given opportunity of romping under well directed supervision in the wholesome air amid healthful environment. In fact, youth will not be denied and it is well that proper control be exercised over the activities, in order that the fullest benefit may accrue to the greatest number."

"A Contest of Kites is analogous to the endeavors of mankind; some are high fliers, some are odd, some are sturdy, some are frail, some will carry a burden without effort, some are playthings, some are of great usefulness, and some unfortunately, do not function."

"Victories of life are won, not on the field, in the forum or among the marts, where the decisive struggle takes place, but in the obscure and forgotten hour of preparation. Success or failure lies in the hands of the individual long before the hour of final test comes."

"As in life, so with kites, let us ever be mindful of the quality of knowing how to build well before the structure is started. This is the true interpretation of the Kiwanis motto, 'We Build'."

HEAVY STONE IS FOUND BEST BY COMMISSIONERS IN BUILDING HIGHWAYS

Experience of the past year in building Allen-co roads has demonstrated that heavy grades or stone are more practical than finer grades, county commissioners declare.

"We have come to the conclusion that crushed stone of less than four inches in diameter doesn't build very good roads," declared A. J. Gray, "All of the roads stoned last year that were covered with heavy rock have stood up thru the winter in good shape. The ones that are out of commission are those on which one and two-inch stone was applied."

Wherever possible, the commissioners are planning to use only heavy stone during the coming summer. The chief difficulty, they declare, is that only a few quarries afford the right sort of rock—hard to crush into the heavier grades.

Commissioners say that if six-inch rock was used for base work, it would build better roads than four-inch. There is, however, practically no six-inch rock to be had in the county.

Where heavy rock is used it will be laid down as a base course and filled with smaller grades. The large rock tends to hold the smaller, it is pointed out.

BEWARE OF THE GARBAGE CAN

Some garbage pails are inoffensive—others a disgrace. Which is yours? It depends upon how you treat it. To keep it odorless and harmless demands frequent cleansing and sterilizing. But you can make the job easy and thorough by using Babbitt's Lye twice a week—oftener in hot weather. If you don't, flies will collect and breed, odors and dangerous conditions will develop. Babbitt's stops all that.

Kills Flies Before They're Born

Babbitt's Lye kills flies where they breed. It dissolves every particle of animal or vegetable matter left in the garbage can; it searches out every crack and corner where germs might breed and leaves the can absolutely clean and sterilized. It destroys everything that could decay and generate bad odors.

Unseen But Dangerous

Drains from kitchen sink, refrigerator and bathroom are out of sight and easily overlooked. More need then to make it a rule to clean them at regular intervals—say twice a week. But they need more than a mere

disinfectant. They need Babbitt's Lye because it both disinfects and sterilizes. It dissolves every atom of grease and foulness; destroys utterly every lurking microbe and disease germ and leaves the drain absolutely clean and harmless.

Cheap Enough to Use Lavishly

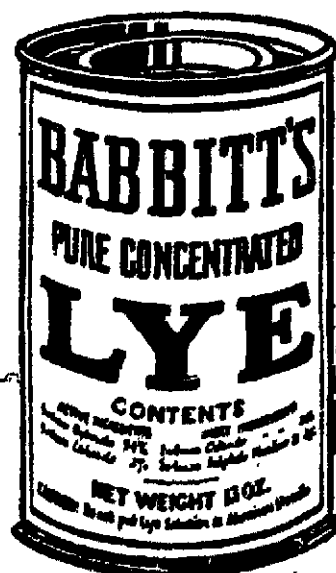

Most disinfectants are so expensive that many hesitate to use them freely. But in Babbitt's you get not only the best disinfectant but one that is so cheap anyone can afford to use it liberally. Buy Babbitt's then for two reasons; it is better because it sterilizes as it cleans; and cheaper because it goes farther and costs less.

Babbitt's LYE

For 86 Years the Best
Air-tight Top Holds the Strength

For Drains:

Put into the opening of the drain two tablespoonfuls of dry Babbitt's Lye and trickle in very slowly a half gallon of hot water. After 10 minutes flush freely from the faucet.

For Garbage Cans:

With an old broom scour the inside of the can with two tablespoonfuls of Babbitt's Lye dissolved in four quarts of hot water. Rinse with clear water and dry in the sun.

How He Cured His Rupture

Old Sea Captain Cured His Own Rupture After Doctors Said "Operate or Die!"

His Remedy and Book Sent Free.

Captain Collins sailed the seas for many years; then he sustained a big double rupture that soon forced him to not only remain ashore, but kept him bedridden for years. He tried doctor after doctor and tried after tried. No results. Finally, he was assured that he must either submit to a dangerous and almost certain operation or die. He did neither! He cured himself!

Captain Collins made a study of his condition—and at last he was rewarded by the finding of a method that so quickly made him a well, strong, vigorous and happy man.

Anyone can use the same method. It's simple, easy, safe and inexpensive. Every ruptured person in the world should have the Captain Collins book, telling all about how he cured himself, and how anyone may follow the same treatment in their own home without any trouble. The book and medicine are 14c. They will be sent prepaid to any superior person who will fill out the below coupon and send it right away—now—before you put down this paper—**ADVE.**

WORK AS DIVORCE PREVENTATIVE

MR. AND MRS. JOHN C. DEMAREST.

MEET Mr. and Mrs. John C. Demarest, Wyckoff, New Jersey, living proof of the fact that hard work is the best preventative of divorce. They believe that implicitly.

In these days of easy marriage and almost equally easy divorce, the biggest reason for the state of affairs into which we have gradually grown is that married folks have things too easy.

This aged New Jersey couple, now nearing the sunset of life, after 73 years of marriage and love, still work and find in it one of their greatest pleasures. He is 95 and she is 91. He still works his own garden and she does her own washing.

They were married March 2, 1850, and were blessed with four children. They have six grandchildren and seven great-grandchildren. In their youthful days getting married wasn't a joke. The boys rode horseback when they went courting and raced to the girl's house. There were no telephones then and no rural delivery.

Girls didn't think so much about dress. Each girl had two dresses a year, one of flax and the other of wool, both home-grown and home-made. They had one pair of shoes a year, which they saved until just before starting for church or a dance.

In those days young couples built their own houses of hewn logs. They lived simply, worshipped God in love, filled their days with hard work, their stomachs with wholesome food and were happy because they had no time to be anything else. Young people in these days do not work hard enough!

In all their married life the Demarests were never separated but once, when "grandpa" visited his brother in Iowa 37 years ago. Their wedding day was the first time Mrs. Demarest had ever ridden in a wagon.

Litigants in divorce suits in these times may draw an excellent lesson from the lives of Grandpa and Grandma Demarest.

THE DANGERS OF CANCER

CANCER is especially likely to attack constitutionally strong and healthy people, according to a popular notion. And you find the same idea in many medical books of standing.

The truth is this: Cancer and tuberculosis tend to attack persons who are constitutionally weak. So announces Dr. Raymond Pearl of Johns Hopkins, after studying the life histories of 100,000 residents of Baltimore.

Live sensibly, keep the body's general health good by plenty of fresh air, exercise, pure food, sleep and healthful thinking. Then almost any disease will have a hard time "getting" you. Better than guarding against individual diseases.

Taxes amount to a small thing when that thing is wanted. There's the county auto tax. And the state license tax. The federal income tax. The auto luxury tax. IDIOTS Who Won't Stop, Look and Listen Make Crossing Cop Nervous Wreck

SHELBY, Ohio — (Special) — A life of just one narrow escape after another has finally lost all thrill for John McMahon, veteran railroad man. So he has passed in his "Stop" sign and quit his job as flagman at the C. C. & St. L. Railroad crossing here "while the quitting was still good."

"When I came on this crossing job three years and nine months ago," he says, "I was sound in mind and body. Now I'm a nervous wreck. Reckless autoists are to blame."

"Crossing gates mean nothing to a lot of those wild drivers. They smash thru them just if they were meant to be broken down."

"If the flagman is not alert and quick on his feet, he is very apt to get hit. I have dodged automobiles long enough while trying to save people from their own foolhardiness."

McMahon believes that recklessness on the part of autoists at grade crossings could be largely eliminated if crossing flagmen were given police powers to control highway traffic and arrest offenders.

"Unless this is done," he said, "there is little chance to lessen the number of terrible accidents caused by the criminal carelessness of motorists."

"Drivers stop before crossing a busy street or road, but at railroad crossings they seem to be obsessed with the idea that they must beat the train."

"The reason? They know that the flagman has no authority to arrest them."

McMahon, 66, is an old-time railroad man. He has worked for 35 years in the maintenance of way department before he became a crossing watchman.

"My wife found out, about three months ago, that a lump which had been growing in her left breast for some time was a cancer. Dr. —

— advised her to be operated on right away, but after thinking it over she decided against the operation. She didn't believe she could stand the pain—nor the anesthetic."

In the meantime she heard of a man in — that could draw out a cancer with plasters. She consulted him; he commenced his treatments nine weeks ago. The sixth plaster has just come off and apparently has done nothing but cause intense pain. The man says it is because she has used her arm and that he must put another plaster on which will bring it out if she will keep her arm quiet for 10 days and stay in bed. There is also a tumor or lump as large as a hickory nut in the other breast, which he says will be cured by the plaster on the left breast drawing the poison from her system. I know the answer that I would get from our family doctor, but I feel that you will give an unbiased opinion."

What horribly crude and inhuman treatment this poor woman has suffered in her ignorance! How infinitely greater the pain and the risk involved in dissecting a cancer out by means of caustic plasters or pastes than the pain or risk associated with the knife! Whether the particular plaster or paste employed in this instance was arsenic or zinc chloride or other caustic, I do not know, but it was a caustic, obviously, and the "treatment" amounted to nothing else than slow burning of all the tissue touched by the cauterizing chemicals, both normal tissue and cancer, followed by sloughing and ulceration, as after any terrible burn. And this woman voluntarily elected to endure the plaster treatment, though probably she little realized what it meant.

Her husband isn't a good sport. He writes, now, in a half incredulous spirit, words his letter in such a way as to place the onus upon the unfortunate wife and to suggest that it was none of his doing. But he aided and abetted the cruelty. He plainly betrays his belief that the family doctor would be "biased."

Biased about what, in heaven's name? Biased in favor of humane treatment? Biased against such crimes as this plaster charlatan has perpetrated?

QUESTIONS AND ANSWERS
Brand and Obesity

I send you herewith the wrapper from a loaf of bread—which purports to cure obesity. Please tell me whether the bread will do all that is claimed for it on the wrapper.—A. S. H.

Answer—Nowadays the labels or wrappings of straight-out medicines have to adhere more or less closely to the truth, whatever outlandish claims may be made for them in indirect observation. But foods seem to enjoy great liberty. This bread wrapper, for instance, informs the customer that the bread "stimulates the fats by changing the blood, adding red corpuscles to replace the fat-forming globules." A rather impressive assertion to the uninitiated, but the "veriest bunbaker" nevertheless. The wrapper further carries a list of foods which the fat one "may eat" and "may not eat." If any reduction is realized while the fat one is eating the remarkable bread, rest assured it is not because she ate the bread.

And Live Oil

Any possibility of oil liver oil ever harming a person.—A. V. H.

Answer—Yes.

Head Notes

Mrs. L. G., who has had head noises for years, writes: One can live with such noises and forget them. I know from my own experience. For one thing, I noticed that when falling in the noises were more pronounced and when recovering they diminished. From which observation I concluded that the rather incoherent idea that the noises are greatest when the system is fighting a good battle, and not of that I have derived some mental encourage-

ment. This probably is clear, but I wanted to make known to others with head noises that one can with perseverance learn to ignore and forget them.

Answer—Good practical psychology.

Birth Mark

At what age can a birth mark be removed from a baby's forehead?—Mrs. L. J. O.

Answer—Any age; the younger the child the better the cosmetic result of the surgical method employed. (Copyright, 1923)

JUST FOLKS

By EDGAR A. GUEST

THE GOOD WIFE

When skies are cloudy and hope sinks low,

The smile of a true wife's good to know.

When the road seems long and the goal not clear,

The voice of a true wife's sweet to hear.

When your best seems lost to the heedless throng,

The faith of a true wife keeps you strong.

Well-armed he, for his days of strife,

Who comes at night to a smiling wife.

And brave he'll be in the bitter choice

Who is counseled well by a gentle voice;

And much he'll dare, and much he'll do

Who owns the faith of a woman true.

For this is the charm of a woman fair—

She can smile at failure and smile at care.

She can soothe the blows of the world and speak

New strength into him who is faint and weak.

And he'll brave the world with his head up high.

The faith of a woman to justify.

We are two, we are two, tho we seem as one.

The smile of a true wife lights us on.

The voice of a true wife in our ears holds us fast thru our doubts and fears.

And for all we dream as life speeds along

The faith of a true wife keeps us strong.

WHERE EVERYBODY HAS A HORN TO TOOT

LOS ANGELES.

Los Angeles, the glamorous, where all the streets are clamorous with motor cars too numerous to count; Where real-estate trot to you to sell a house and lot to you, And population's always on the mount.

Los Angeles, where baby-talk quite naturally may be talk Of oil and mines and railway lines and fruit;

A feverishly busy town, a tonic and a fizzy town, Where everybody has a horn to toot.

Los Angeles, where roses are, yet where the people's noses are Sometimes assailed with oil and sooty smoke;

Where one may quickly cop a roll and just as swiftly drop a roll, Be rich today—tomorrow wholly broke!

A proud, enthusiastic town, at times a bit bombastic town, Whose boosters boost by night as well as day.

A town that has society of every known variety And every game on earth for them to play!

Los Angeles, where folly would appear to reign at Hollywood (If you believed the tales that people spread)

But where the movie-makers are as decorous as Quakers are

Who labor, play a bit, and go to bed, (Whichever tale seems best to you of these that I've expressed to you, Accept it, doubtless neither one is right—

You know how rumors tangle us — and I've observed Los Angeles From three one afternoon till ten at night!)

'Fountain of Youth' Is Found By Science

European Discovery, Easily Used at Home, Restores Vigor Quicker Than Glad Operations.

Those who suffer from nerve weakness and lack of vigor will be interested in a European discovery which restores full physical power quicker than glad operations. It is a simple home treatment in tablet form, absolutely harmless and yet the most powerful invigorator known. Acting directly on important nerve centers, glands and blood vessels, it often produces amazing results in 24 to 36 hours and gratifying results within a week. Physicians say it gives speedy satisfaction in cases that defy all other treatment. Elderly people declare it is a real "Fountain of Youth."

Established under the trade name of "Sorex compound," the discovery has been tested thoroughly in America and the manufacturers have received a veritable flood of letters of praise and gratitude from revitalized men and women in every state. Patients post 60 testifies that the compound quickly restored to them the vigor of the prime of life.

Knowing that this news may seem "too good to be true," ordinary cases, invite any person needing the compound to take a double-strength treatment, sufficient to give ordinary cases, with the understanding that it costs nothing if it fails. If you wish to try this guaranteed tonic, write in strict confidence to the Melton Laboratories, 2630 Massachusetts Bldg., Kansas City, Mo. You may enclose \$2, or simply send your name, without money, and pay the postman \$2 and postage on delivery. In either case, if you report "no results" after one week, the laboratories will immediately refund your money. This offer is guaranteed by ample bank deposits, so nobody need hesitate to accept it.—Adv.

ONE NEVER KNOWS WHEN TO MAKE A CHANGE

(BY GERTRUDE GILLHAM)

"TALKING to Antonio Moreno is rather disturbing to a fellow with set notions on how success is attained," writes James Dean.

"Most of the picture stars I have interviewed sound like so many Babbitts. They make vague, nebulous remarks about ambition, hard work and then paradoxically speak of the new heights they hope to attain, although they have given you the impression that they are snugly satisfied with themselves.

"Moreno is snugly satisfied with himself. He says so frankly.

"I saved my money and invested in stocks and lost most of it, but I stuck to it and my fortune turned the other way," he told me. "Now I've got enough to live on the rest of my life without worrying and I'm married and happy, see. And that's enough, isn't it?"

"Well, well! How about this fellow's contribution to art? Isn't he going to help uplift the screen? Hasn't he a great itch to act one certain character, something that will hand his name down to posterity as one of the greatest artists of his time? Most of them jabber away on those lines.

"I asked him what his pet ambition is, what role he has long looked forward to acting.

"Anything that suits me," he answers. "Spanish preferred, see. They tell me that I'm to play in 'Don Cesar de Bazan' and that'll be about as good as I ever get. Once I played in 'The Tarantula.' That was Spanish and lots of letters I got, so I asked to play more Spanish parts, see. They'd listen to me and tell me they appreciated what I say, see, but they know their business. I'll play Irishmen, Germans, Scotchmen, Englishmen—every-

Romance of Norwegian Hills at Lyric

NOW, if any novels have been converted to the screen with greater fidelity than "The Romance of the Norwegian Hills," starring Jane Novak, and appearing until Saturday at the Lyric. Her ability to register refinement in all her acting has been one of the principal reasons for Miss Novak's rapid rise to stardom.

Her delicate blonde beauty and spiritual loveliness is perhaps the perfect embodiment of Marie Correll's heroine. Miss Novak makes Thelma live upon the screen. As the central figure of an exquisite romance with a British nobleman, she lends a note of poignant appeal to this striking love story. The plot

"The Hottentot," Steeplechase Film, Feature of Year

SENSATIONAL jump never before negotiated has been included in the spectacular Steeplechase scenes in "Thomas H. Hottentot," now appearing at the Sigma theatre.

One of the most difficult jumps to teach a high school horse is to take a picket fence. Director Del Andrews, who filmed the race scenes in June's seven version of the stage play in which Willie Collier scored such a success, was so determined to get something brand new in the way of racing thrills that he had two picket fences put in succession on the course which was specially laid out for the Steeplechase in the picture. Thirteen horses take twenty-four jumps, including stone walls, wire fences, hedges, artificial barriers and an eighteen foot water jump. More time was spent in teaching the horses to take the double picket fence jump than was necessary for all the other jumps combined.

Besides the spectacular Steeplechase sequence, said to be the finest of its kind ever screened, "The Hottentot" is more hilariously funny than the play which rocked the entire country for two years. Some absolutely novel comedy stunts have been included while all the original wit of the play which you so many laughs has been preserved in sparkling sub-titles.

MOTHER! MOVE CHILD'S BOWELS

"California Fig Syrup" is Child's Best Laxative

Tongue Shows if Biliary, Constipated

Hurry mother! Even a cross, sick child loves the "fruit" taste of "California Fig Syrup" and it never fails to open the bowels. A tea-spoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, has cold, colic, or if stomach is sour, tongue is coated, bread bad, remember a good cleansing of the little bowels is often all that is necessary.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup—bad.

Fresh eggs at 24c per dozen, a loaf of bread at 6 cents. Friday and Saturday special.

thing I play but what I look like." "Why did you? I interrupt. "Well, I don't use my head much. I do my thinking here," he answers. You see, all of us Latin people are like that. We do what the heart says, see.

"I liked Mr. Smith of Vitagraph. My affection for those people was very much. That's why I didn't change when other people asked me, see. Now my affection for Mr. Lasky and the Paramount people is growing very much. I think I'll like them even more some day than I did the Vitagraph people.

"One time I was offered \$1000 a week, much more than I was getting, but it was a new company and I was afraid to change, see. One time I came to New York to talk to Mr. Lasky about changing, but he didn't understand me or I didn't understand him, so I went back to the old job, see.

"Maybe if I had made a change sooner I'd be a big star. Now they tell me I must start all over and maybe some day I'll have a big place. But I'm not fixed so bad, see. I want to keep on working and doing my best, but I didn't know when to make a change, see."

"Yes, I saw. The world is full of men who don't know when to make a change. Some don't change jobs when they should and some change when they shouldn't. And success is almost any old calling is, after all, largely a matter of luck.

"Antonio Moreno is the handsomest man I ever beheld. He is a creature of circumstances. Fate cast him in a vocation where at present good looks mean more than anything else. He is elemental, he is ruled by his emotions, his passions.

A Stubborn Cough
Loosens Right Up

This home-made remedy is a wonder for quick results. Easily and cheaply made.

Here is a home-made syrup which millions of people have found to be the most dependable means of breaking up stubborn coughs. It is cheap and simple, but very prompt in action. Under its healing, soothing influence, chest soreness goes, phlegm loosens, breathing becomes easier, tickling in throat stops and you get a good night's restful sleep. The usual throat and chest colds are conquered by it in 24 hours or less. Nothing better for bronchitis, hoarseness, croup, throat tickle, bronchial asthma or winter coughs.

To make this splendid cough syrup, pour 2 1/2 ounces of Pinex into a pint bottle and fill the bottle with plain granulated sugar syrup and shake thoroughly. If you prefer use clarified molasses, honey or corn syrup, instead of sugar syrup. Either way, you get a full pint—a family supply—of much better cough syrup than you could buy ready-made for three times the money. Keeps perfectly and children love its pleasant taste.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known in the world over for its prompt healing effect upon the membranes.

To avoid disappointment ask your druggist for 2 1/2 ounces of Pinex with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., St. Wayne, Ind.

In addition to being a regular meeting of the club, the affair was arranged as a "miscellaneous shower" on Mrs. Wilbur Higby, who was before her recent marriage, Lorena Burkhardt.

At the conclusion of the bridge playing, with Mrs. Higby holding high score among the members, she was presented with a huge basket filled with gifts from the sorority members and guests. Mrs. Thuburn Howlitz held high score among the guests.

Miss Miller was assisted in serving a delightful luncheon by her mother, Mrs. O. W. Miller.

Mrs. Frederick T. Cuthbert, W. Market-st., is entertaining on Friday in compliment to Mrs. Ralph Warner, Oakland, California, a house-guest of her sister, Mrs. George Vicary, W. Market-st. Mrs. Cuthbert will welcome her guests at a luncheon-bridge at her home.

Miss Elizabeth Moulton, a student at Wellesley college, will arrive home Saturday to be the guest of her parents, Mr. and Mrs. H. S. Moulton, W. Market-st., during the spring vacation.

Mrs. John Klay and Mrs. Herbert Shippe entertained the members of the Coterie club, Tuesday noon, at the home of Mrs. Klay, E. Kibby-st. The table, at which the guests were seated during the serving of a five-course luncheon, was attractive with its centerpiece of a miniature lake, surrounded with green and white flowers. In the contests held, Mrs. Frank Nelson and Miss Ada Gibson were successful.

During a short business meeting, it was decided to reorganize and the name was changed to Alpha Theta sorority. Mrs. G. C. Butler and Mrs. G. M. Baumgardner were admitted to membership.

Mrs. Lester May, Sanders-av., will entertain the sorority in two weeks.

RIBBON SANDWICHES

By BERTHA E. SHAPLEIGH

Remove crust from a loaf of white bread. Cut into slices an eighth of an inch thick.

Work half a cup of butter with a spoon until creamy. Color it green using spinach juice or color paste, and mix with one-fourth cup of grated horseradish. Season with salt and spread the bread with this mixture, placing one slice upon another until the sandwich consists of 10 layers.

Press firmly together, and put in a cold place until time to serve, then cut these piles into slices one fourth inch thick.

If it's necessary to keep the sandwiches for some time wrap in a napkin wrung out of hot water, or in wax paper.

Ribbon sandwiches can be made very attractive by placing various red, green and yellow fillings between the slices of bread. Repeat this twice. Chopped pineapples with cherries, crushed peppers, ham and hard-boiled egg make good fillings, combined with butter or mayonnaise.

MACARONI SALAD

By BERTHA E. SHAPLEIGH

When cold meat is the main dish for luncheon or supper, macaroni may be made into a tasty salad to go with it. This dish consists of the following ingredients:

Three cups of cooked macaroni; one cup of celery; one apple; one small onion, finely sliced; one green pepper, cut into dice; one pint of oil; one can of tomato sauce; four tablespoons of oil; two tablespoons of vinegar; one teaspoon of salt; pepper to taste; one cup of cooked salad dressing or a cup of mayonnaise; and two tablespoons of tomato catsup.

Cut the celery and macaroni into small pieces. Pare, core and cut the apple into very small, thin slices. Mix all the ingredients together and set in a cold place to chill.

Serve on a platter surrounded by slices of meat or hard-boiled eggs, or serve separately on lettuce or any other green salad plant.

IDEAL EASTER MILLINERY; THREE LOVELY SAMPLES

Here's a peep at a trio of exceedingly pretty spring hats.

At the upper left is a dream in purple and the new shade—"mountain haze." With the right type of face it gives an entrancing effect.

At the upper right is a very chic thing to which black moire ribbon gives its charm. Few designs at-

tracted more favorable comment at the recent millinery show in New York.

The hat at the bottom is a platinum and navy blue ribbon confection.

It isn't a bit likely that the Easter turnout in any city will have prettier samples to show.

SUSIE SMART'S ADVICE

Dear Miss Smart:

I AM a girl 19 years old. I read "Susie Smart's Advice" and I must be about the same age as she. I am considered a nice looking girl, with dark blue eyes and am rather tall. I must attract a fellow, but I go with them only once for after that one time I cannot even think of them. I am a good student, but I do not like to go to school and have to be there at 7 o'clock and have to be there at 7 o'clock and have to be there at 7 o'clock.

Can you tell me how I can get rid of blackheads on my face and make my complexion more clear?

I FEEL sure that a young man will come your way soon who will measure up to all your requirements. Of course, you will not turn out to be a man, later unless you make yourself feel that way. There are plenty of men looking for girls like you.

The simplest and really effective remedy for a case of blackheads is to wash the face thoroughly with a solution of green soap and hot water. Then rinse thoroughly and massage with a good cold cream.

Dear Miss Smart:

Please tell me how I can meet the said M. K. I think we have the same name. I thank you.

If M. K. wishes to meet T. K., please send your name to me and I will forward it to T. K.

Dear Miss Smart:

I went out with a man several times, then he broke a date with me. Finally he told me that he was a married man and couldn't always be true to me. I was disappointed with him.

Well, I kept on going with him anyway. But lately he has not called on me and I am just heartbroken. Do you think he is going with some other girl and that is why he doesn't come to see me any more?

Probably the real explanation is that this man has come to a realization of what his wrong course was likely to lead to and has decided to devote himself to his wife and his home.

For the sake of your good name, if you are not to be moved by any selfish consideration, try to put him out of your thoughts and have nothing further to do with him.

YOU LONELY PEOPLE:

Do you know the Lonely club has been organized and has had three

meetings? There will be a meeting Friday evening and if you wish to know where, so that you may attend, call Main 6949 and ask for Miss Smart. Don't forget, it is no longer the Lonely club, but the Friendly club.

That Gleaming Hair Comes From Using Olive Oil Shampoo

Today you see beautiful hair everywhere. Hair that gleams. Women who have it have learned an important secret. They use the famous olive oil shampoo. Hair experts say that hair should never be washed without olive oil in the shampoo. For they say that dry, brittle hair results. And dull hair is never beautiful. Now you can have the olive oil shampoo in its most delightful form. Cheaply, at home. Just get a bottle of PALM-OLIVE SHAMPOO. At any drug store or department store. It quickly brings back the lovely sheen to your hair. Leaves it beautifully soft and glossy. You will marvel at the improvement!

FOOD robbery is often disguised. Vital essentials of diet are left out and the defect hidden by quantity, looks and taste.

Phosphorus is a food element necessary to the body. Nature provides it in her good grains—but extra "refinement" in the milling processes throws it away.

Grape-Nuts supplies phosphorus as a part of the well-rounded, perfected nourishment from wheat

and malted barley—together with iron, vitamin, and a bran content so often lacking in modern food.

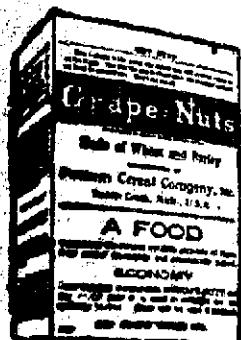

Grape-Nuts with cream or milk is completely and soundly nourishing; so crisp and delicious that every member of your family will greatly enjoy it for breakfast, lunch or supper.

BEGIN HERE TODAY
Vendetta begins between MICHAEL SAYERS, noted criminal, and SIR NORMAN GREYSES, one of Scotland Yard's beautiful housemaids.

NOW GO ON WITH STORY
MICHAEL CONTINUES:
Metzger bent toward her. I moved not, but I think he would not have heard me if I had worn hob-nailed boots. The rest was easy, for it was a trick I knew well. He collapsed with scarcely a gasp. I tightened the cord a little and the deed was done.

GREYSES TAKES UP THE STORY:
It was entirely by accident that I had dined that night in the grill-room of the Altan Hotel with Rimmington. He had asked me for an interview that afternoon over the telephone, and being discouraged, I had suggested a little dinner at my club. We had arrived there to find the place packed and the best tables full. Sooner than wait, we had come to the Altan. Rimmington was in the act of disclosing his reason for wishing to see me, when the manager, who was an old acquaintance, came across to us.

"I wonder whether you would mind coming upstairs with me for a moment," Sir Norman said. He began, "And you too, Mr. Rimmington. I've just been sent for. Something wrong upstairs."

We rose without hesitation and followed him out of the room, into the lift and up to the sixth floor. When we stepped out, several of the servants were gathered at the foot of the stairs. The manager, who was in the act of disclosing his reason for wishing to see me, when the manager, who was an old acquaintance, came across to us.

PATTERN FOR TODAY

A POPULAR HOUSE DRESS
Pattern 3705 was used to make this dress. It is cut in 7 sizes: 36, 38, 40, 42, 44, 46 and 48 inches bust measure. A 38 inch size will require 6-3/4 yards of 27 inch material. This model has good lines and practical style features. The sleeve may be finished in wrist or elbow length. The width at the foot is 2 1/4 yards.

"Well," Rimmington said, as we descended to the ground floor to meet the men whom he had summoned from Scotland Yard, "we got it in the neck sometimes about our failures. This time, if we don't get hold of De Miguel and his heavy trunk, I should think we deserve all the censure we get."

"Nothing in it for me, I'm afraid," I remarked as I bade him good night. "It doesn't look like it," he admitted. "However, one never knows."

It was the unexpected which happened. Altho Mr. Jose de Miguel and his wife could have had barely an hour's start, and were handicapped by the possession of two trunks of enormous weight, a week passed without any news of their arrest or of the recovery of any part of the gold. Metzger remained in a state of partial unconsciousness and could give no coherent account of what had happened. Gorty returned from Manchester and behaved like a madman. He spent his time between Downing Street, where he boldly accused the Government of having taken the gold, and Scotland Yard, where he expressed his opinion of the English police system in terms which made him, to say the least of it, unpopular there.

"MY GOLD!" RIMMINGTON EXCLAIMED. "HE'S DEAD!" "HE'S VERY NEAR IT," I REPLIED.

humanity. With a blackened face and protruding eyes, his tongue lolling out on one side, it was still not difficult to recognize him. The manager, who was in the act of disclosing his reason for wishing to see me, when the manager, who was an old acquaintance, came across to us.

"How long ago did those people leave?" he asked. "And what luggage did they take with them?" "They left an hour ago," the floor waiter answered. "They had two very heavy trunks."

"The floor waiter, who was an intelligent fellow, followed us into the other room, to which we had withdrawn on the arrival of the doctor. "There is one thing I ought to tell you, sir," he said. "The porters tried to move those trunks several hours ago, while Mr. Metzger was busy writing in his room. They were too heavy then—and at this time the cases were still in Mr. Gorty's room."

"You are sure of that?" Rimmington asked. "Absolutely, sir."

Rimmington looked around. I could see that the same thought had occurred to him as to me. The briefest of searches confirmed our suspicions. The wardrobe was filled with lumps of heavy stone.

"There is only one point now remaining to be solved," I observed, "and that is, did these two, Mr. and Mrs. Jose de Miguel, carry out this little affair entirely alone, or had they accomplices?"

"They had a visitor about an hour before they left, sir," the floor waiter told us.

Rimmington took out his notebook. "Description, please," he asked. "I scarcely saw the gentleman myself, sir," the man replied. "He seemed quite ordinary-looking. He wore glasses, and his hair was gray."

LETTER FROM KATHLEEN WHITEY TO ALICE HAMILTON
ALICE DEAR:

The other day when you called me over to tea with those ungentle gentlemen, I suddenly became aware that you had grown up. You were very skillfully turned the shafts of curious criticism of you sister into a kind of boomerang that reflected upon themselves.

Now my dear—I was going to say child, for I have known you ever since you were born and I turned my nose at your pucker little red face when Leslie insisted that I should look at her new sister. I repeat now, my dear girl—does that not sound quite young ladyish—when you know that I am coming to you for advice I hope you will understand that in my eyes at least you are mature of mind if not of body.

After this long preamble, I will come to the point. I am very anxious to give Leslie a pearl necklace for a wedding present and I do not know just how to do it without drawing out some sensational comment about the gift. Though why as old and as rich a man friend as I should not give her anything she wished and she might accept is a conundrum I cannot answer.

Alice dear, I expect that you, like everyone else, know that sister Leslie was eight and Leslie four I have intended to marry her. No other girl has had the slightest interest for me. My one thought, my one dream of real living has been of the time when Leslie would be my wife.

When my father died, and I, at twelve years of age, came into more pocket money than I knew there was in the world, my first thought was to buy something for Leslie. Immediately I rushed over to her and asked—"If you could have a piece of jewelry what would you ask for?"

"A pearl necklace," she answered promptly. "I'll get one for you immediately." I promised proudly, never realizing what a pearl necklace would cost.

But I soon found out that pearl necklaces were much beyond the pocketbook of even a little boy.

LETTER FROM ALICE HAMILTON TO BETTY STOKLEY
Ch Betty, Betty, I am so sorry you are over there in Europe.

Betty my dear, I have stumbled—literally stumbled—onto the most romantic episode that probably has happened in this practical twentieth century.

I would not confide it to anyone but you, and not even you if I did not know that you had gone abroad to gather material for your great novel.

This true romance will show you what I always contended when we were at school—that you can find undying love in this country just as well as anywhere else.

Guard Against "Flu" With Musterole

Influenza, Grippe and Pneumonia usually start with a cold. The moment you get those warning aches, get busy with good old Musterole.

Musterole is a counter-irritant that relieves congestion (which is what a cold really is) and stimulates circulation. It has all the good qualities of the old-fashioned mustard plaster without the blister.

Just rub it on with your finger-tips. First you will feel a warm tingle as the healing ointment penetrates the pores, then a soothing, cooling sensation and quick relief.

Have Musterole handy for emergency use. It may prevent serious illness. 35c and 65c, in jars and tubes. Better than a mustard plaster.

She thought him rude for staring at her but he had a reason.

If she could have read his mind she would have known why. At first glance, the girl opposite him in the train appeared exceedingly neat and well-groomed.

But the moment she opened her lips to speak, he noticed that her teeth were dull, cloudy and untidy looking. It was like seeing a well-dressed man wearing a soiled collar.

So many otherwise fastidious men and women forget that their teeth are probably the one most noticeable index of real gentility. Every word you utter fixes someone's eye upon your lips. And your teeth often have more to tell about you than what you actually say.

Only the right dentifrice—consistently used—will protect you against such criticism. Listerine Tooth Paste cleans teeth a new way. The first tube you buy (25 cents) or the free sample (see coupon) will prove this to you.

FOUR FAST FIGHTS FRIDAY NIGHT IN PROSPECT

GROSS, AMES BOUT IS HEADLINER

Lima sport fans will have an opportunity to see two fast rivals in action at Memorial hall Friday night when Jake Gross and Willie Ames mix it in a bout scheduled to go 12 rounds.

Both boys are in tip top shape and are confident. Their managers believe it will be the best fight of the series these lads have staged and which have ended with varying results.

Hammering Howie has been training diligently for 10 rounds. The boys have clashed before and gave a fine exhibition. Howie will weigh 145 and Young 147 pounds.

Tommy Baumgardner, of Ft. Wayne, looks good and Tommy Warren, with whom he will battle, will be a worthy opponent, according to indications. These big fellows will weigh around 200 pounds and will go six rounds.

SCRAPPED WITH WILLARD
Baumgardner shipped big Jess Willard some wicked punches at Ft. Wayne a short time ago when they were in the ring together for an exhibition.

The scrap between Baumgardner and Warren will decide which should be given first chance at some of the good boys like Jack Hays, of Toledo.

Young Harry Greb and Young Ferris are booked to step four rounds and the outcome will decide who is the best bantam in Lima. Both have been going fine and should put on a fine exhibition.

On the whole, the card promises plenty of thrills and is so arranged to give fans a taste of practically every class of the game. It is being staged by the Lima Gym club, which has staged some exceptionally fine shows in the past.

Harry Walters will do the announcing and Charlie Maxwell will referee.

The ticket sale has been heavy, and a big house is assured. Many fans in other cities have bought blocks of seats.

GIBSON WILL AID BUSH

TAMPA, Fla. — George Gibson, former star pitcher of the National League, who almost won a pennant for Pittsburgh in 1921, is now an American League under years of service in the older organization.

Gibson was signed by President Griffith as assistant to Manager Donie Bush, and the move is certain to greatly help the Nationals.

Bush, making his debut as a big league manager, is sure to profit by advice and suggestion from Gibson, who has had long career as player in addition to that of manager.

However, Gibson's greatest value to the Washington club will be in the development of its pitchers. For years Washington has suffered as the result of mediocre pitching. At present pitching looms up as Bush's greatest problem.

Gibson is working with a bunch of youngsters, some show much promise, others seem a bit removed from big league class, in need of more experience.

Weeding out a pitching staff is a problem these days, because the draft question makes it a very difficult matter to place youngsters who have promise. While existing conditions between the minors and majors, it is practically necessary to pass final judgment as to whether a pitcher should be retained or cut loose.

No doubt the judgment of Gibson will have much to do in solving the pitching problem. In his day there was no better receiver than Gibson, and the Bush-Gibson combination seems destined to prosper.

TRAINING CAMP NEWS NOTES

SEGUIN, Tex. — With Barnes, Neft and Jonard pitching in mid-season form today when they clash with the Chicago Cubs, the Giants trimmed the White Sox 4 to 0, the Sox getting only four hits. O'Connor, the Giants' \$75,000 beauty, got one single and accepted one chance in the field.

NEW ORLEANS — With a mixed team of regulars and rookies the New York Yankees dropped again before the New Orleans Southern Association club by a score of 3 to 1. Ruth got one double in three times up. None of the regular pitchers was used.

CLEARWATER, Fla. — After failing to meet the Cleveland Indians yesterday, the Brooklyn Robins were to have a light session today and engage the Boston Braves tomorrow. Captain Zach Wheat joined the team last night.

AUGUSTA, Ga. — The Detroit Tigers will begin a series of exhibition games today when they clash with the Augusta club at Waynesboro. Manager Cobb denied reports he planned to trade Coach and Plagstead, outfielders, to Washington for Sam Rice.

LAKELAND, Fla. — Today the Cleveland Indians meet the Cincinnati Reds at Orlando for the third time. The Ohio team will play off their tie of one win each. Due to mix up in schedule, the Brooklyn club booked to tackle the Indians tomorrow, arrived in force at Lakeland yesterday. They will be back tomorrow.

AVAXON, Calif. — The first jump the Chicago Cubs spring exhibition series was taken today when the team left for Los Angeles. The Cubs will be on the road until a couple of days before the season opens.

SPRING LEAGUE IN FLORIDA IS GRIFFITH'S GOLDEN DREAM FOR SOUTH

(BY BILLY EVANS)

TAMPA, Fla. — Clark Griffith, president of the Washington team of the American League, has a unique baseball idea that he is bringing to the attention of the major league clubs training in Florida.

Griffith is for a spring league in Florida, starting Feb. 1 and extending over a period of about seven weeks.

Most of the major league clubs go south late in February. Griffith's idea is to have all the major league recruits that are to be tried out to report on Feb. 1.

For a period of four weeks these recruits would play a series of regular scheduled games, after they had properly conditioned themselves.

The regulars would report about March 1 and spend about two weeks getting into shape. Then during the last two weeks of March, just prior to the teams starting their exhibition tour north, the veterans would be worked into the various lineups, giving the fans of the south a chance to see the stars as well as the recruits.

SOLOVE RECRUIT PROBLEM
The big idea of such a league, as explained by Griffith, is that it

show their worth in the ordinary routine of spring training.

Seven teams are training in Florida this year. Griffith would like to see eight clubs do spring training in this state, and thinks it would aid most to the program if four were from the American and four from the National.

An east coast rivalry could be added if Palm Beach and Miami were represented. These two towns have lately expressed the desire to entertain a major league club next year.

Griffith feels that such a league would interest the thousands of northern tourists in Florida during February and March. Incidentally he feels it would work as a campaign of education, that would stimulate interest in baseball and greatly help the Florida State League.

There is much logic to Griffith's idea. As he meets the various managers now training in Florida he is putting the project up to them. It seems to be meeting with universal favor.

It has been taken up with President Lang of the Florida State League, who seems certain that his club owners will fall in with the idea.

Gowdy Coaches Wrestlers

Wrestlers at Central High school are having the benefit of extraordinary training under Peety Gowdy, former champion of the world at 108 pounds.

Gowdy has been working with the Central grapplers for the past two weeks and already they are beginning to show the effect of his teachings. Many of the fine points of the game which they had not dreamed of are beginning to and it is believed he will be instrumental in turning out some first hand wrestlers.

As this is a new sport at the up-town school, the turnout and interest is not nearly so great as that of football or basketball, but it is hoped by sponsors that in the future the art will be practiced by Centralites on a large scale.

With the warm days coming on the wrestling will soon be discontinued. A tournament will be held the first week after vacation and winners in each class will be presented with medals.

REDS HAVE MANY COAST LEAGUERS
ORLANDO, Fla. — On the Cincinnati club are a number of players who first gained fame in the Pacific Coast League. Among them are Sammy Habbe, Louie Ponsica, Babe Pinelli and Johnny Coach.

When the quartet came on from the coast to join the Reds, Willie Kamm was a member of the party. He dropped off to join the White Sox at Saginaw, Tex.

Kamm is the third sacker for whom the Chicago club paid something like \$100,000, which rates as about the highest mark ever paid for a minor league player.

All the Cincinnati players have kind words for Kamm. They say he is a great ball player, one of the most remarkable fielders that has ever broken into the big show.

While admitting that he may not hit as well as some of the fans may expect, when all the money paid for him is considered, they feel that he will rank close to the 300 mark.

A grand ball player and an equally fine boy is the way all the Cincinnati players regard him. They say he is extremely modest, a retiring player, of the George Sisler style.

According to the Reds who hail from the coast, Kamm for purely selfish reasons is glad that the deal New York was trying to make for Eddie Collins fell thru.

Kamm is a smart chap. He is familiar with the ability of Collins and the interest he always takes in the recruits. Collins, remaining with Chicago, Kamm feels, will increase his chances at least 50 per cent, as he realizes the advice of Collins will be invaluable.

HISTORY REPEATS IN CASE OF INFIELD RECRUIT OF REDS

ORLANDO, Fla. — Is history to repeat itself in the case of "Ches" Fowler, infield recruit of the Cincinnati Reds.

"Ches" Fowler attended school at Christian Brothers College in Texas. He was a good scholar and an even better athlete.

In football, Fowler was the sensation of the Southwestern Conference. Down in that section of the country "Brick Muller doesn't mean a thing when it comes to throwing forward passes. Fowler is the hero down that way, when hurling forward pass for distance and accuracy is the subject of discussion.

No doubt you are wondering what all that has to do with history repeating itself.

It so happens that Pete Donahue, star pitcher of the Reds, came direct from Christian Brothers College to Cincinnati. Fowler hails from the same institution. There you have it.

Fowler is a shortstop. He is the ideal build for that position, tall and

raggy. He measures close to six feet and weighs about 165 pounds, all bone and muscle, except above the shoulders. He bats left handed and is very fast and has a great arm.

"The best looking youngster I have seen in years," says Manager Pat Moran. "He has great possibilities unless he develops some serious fault that has not yet been uncovered."

"He reminds me of a 'Bones' Ely, former star of the Pittsburgh team, one of the greatest shortstops the game has ever produced." In addition to wonderful natural ability he seems to have plenty of nerve."

Moran is hoping that Fowler will repeat the success of Pete Donahue and feels the recruit has a chance.

HAIR STAYS COMBED, GLOSSY

"Hair-Groom" Keeps Hair Combed—Well-Groomed

Millions Use It—Fine for Hair! —Not Sticky, Greasy or Smelly

A few cents buys a jar of "Hair-Groom" and any dandruff, which makes even stubborn, unruly or shampooed hair stay combed all day in any style you like. "Hair-Groom" is a dignified combing cream which gives the hair a soft and well-groomed effect in your hair—that final touch to good dress both in business and on social occasions.

Groomless, stainless "Hair-Groom" does not show on the hair because it is absorbed by the scalp, therefore your hair remains so soft and pliable and so natural that no one can possibly tell you used it. —Adv.

Stars Of South To Be Honored

South Stars of the past year will be honored by the faculty of that school Thursday evening at the fourth annual football and basketball banquet.

Fifteen gridiron warriors and seven basketball men will be the guests of honor. Principal G. E. Roudelush will be toastmaster and Coaches Burdette and Robinson will speak in behalf of the faculty. Ernie Ehmans, court captain, and Weldon Winegardner, football pilot, will talk on the part of the players.

The banquet which was first held in 1915 and has since been an annual event will be held in the main dining room of the Barr hotel at 6:30.

NEW LEADERS
MILWAUKEE, Wis. — New leaders appeared in the singles and doubles events of the American Bowling Congress tournament today. K. Schario, of Canton, O., took the lead in the singles when he turned in games of 244, 208 and 243 for a total of 695.

Spring Elmer Lee, of Milwaukee, by two pins. E. Mueller and S. Summers, of Milwaukee, rolled into first place in the doubles when they swept the alleys for a count of 1273.

DEFENDS TITLE
NEWARK, N. J. — Mickey Walker will defend his world's welter weight championship title in a 12 round bout tonight against Pete Latza of Scranton, Pa. There will be no official decision and the challenger must knock out Walker, he could or obtain a technical knockout to annex the title.

AMES WINNER

Willie Ames, Akron, who will battle here with Jake Gross Friday night, won a referee's decision over Billy Marchant, Detroit, in 12 rounds Wednesday night.

Ames showed the referee's decision to dispatches, and should be in condition to give Gross a run for the money when they step into the ring at Memorial hall.

GUISO TO BAT IN CLEANUP

LAKELAND, Fla. — Honors are coming thick and fast to Louis Guisto this year. After being retained by Speaker in preference to the veteran star Melvin, Guisto is once more honored by being assigned to the cleanup position in the lineup.

This selection of Guisto may occasion some surprise to the fans who delve in the batting averages. Last season Guisto in 35 games batted only .259.

Such an average would hardly call for fourth position in the batting order, perhaps the most important spot in the lineup.

Speaker, however, feels that averages often mean little or nothing, and in the case of Guisto last year they mean nothing.

Ellen Potter, 258 E. 1st, writes that one day she was in a meat market when a small boy came in. The butcher asked him what he wanted and he said, "A pound of oysters." The clerk replied that they didn't sell oysters by the pound, but by the measure. "Well then," he said, "give me a yard."

Clara Keltner, 729 Holmes-av., tells of an incident that occurred in a meat market. "A small boy asked for a soup bone. The butcher inquired what kind of a soup bone he wanted. 'I want the calf of a cow's leg.' When the butcher laughed, the boy looked up surprised and asked, 'Don't cows have calves on their legs?'"

M. Wm. Hamilton, Wapakoneta, druggist, says his typewriter hasn't been working very well since the last cold spell. "It didn't seem to help any to hit the keys with a hammer," he says. "I shouldn't wonder but what it needs oil."

Mrs. Florence Smith, bank clerk, knows a young woman who took mince pie at one end of the cafeteria counter, forgot she had it, and helped herself to apple pie at the other end. A friend reports, "It's a good thing there weren't any more pie counters or she might have got too much pie."

Carson Metz, of the Farm Bureau office, was in a drug store when a young woman came in with her new husband. She undertook to introduce him to the pharmacist. But one sometimes forgets names at such a time. She stilled in the midst of the introduction, turned to her husband and said, "Let's see. What's our name?"

"Holly" Thomas ran out of gas while driving on a country road. The farmer at whose house he inquired had no gasoline. But he had the address of a man two miles down the road who had gasoline. "Holly" wrote the name on a slip of paper and set out on foot carrying the paper in his gloved hand. The glove was oily. After he had walked the two miles he looked at the paper. The oil on his glove had obliterated the name and address and all he had left on the paper was his own black thumb-print.

Lydia E. Pinkham's Vegetable Compound Brought Relief When Other Medicines Failed

Winston-Salem, N. C.—"I was weak and run-down and had trouble with my side. I had been taking a long time and nothing seemed to do me any good. My husband went to the drug store and he said to the clerk, 'I want the best medicine you have for women's troubles.' He gave him a bottle of Lydia E. Pinkham's Vegetable Compound and I also used Lydia E. Pinkham's Sanative Wash. I am able to do my work and feel new life and strength from the Vegetable Compound. I am doing all I can to advertise it."—Mrs. A. F. HAMMOND, 72 Carpenter Street, Keene, N. H.

It has helped me. In a short time I was able to do my housework, and now I am not only able to do every bit of that and washing and ironing, but I help my husband at the store and feel good all the time."—Mrs. L. K. MYERS, 1409 E. 14th St., Winston-Salem, N. C.

Smooth Sailing in the Kitchen -

No More Guess Work—Cakes—Pies—Rolls—Dressings etc. made Certain—Ready for the Oven in 5 Minutes!

Think of it! Five minutes after getting the ingredients together, your Cake can be in the oven—butter and sugar thoroughly creamed—dough wonderfully mixed and everything. How long does it take you to do it by hand—and don't forget you can't do it as well that way. That's just one little example of the Magic the Kitchen Aid performs. It gives every woman Kitchen Confidence and Assurance she has never before felt. It guarantees Quick Success in everything she tackles—and it saves her Hours of Time and Loads of Hard, Unnecessary Work. Further, it yields lighter, fluffier, Better Quality Food than can possibly be hoped for when prepared by hand.
